

**ABOUT THE INSTITUTION**

Vignan Institute of Pharmaceutical Technology (VIPT) is one of the constituent colleges of Vignan Institutions well known for quality education with Global standards and Indian values. VIPT was established in 2006 with a view to provide job oriented professional courses in Pharmacy, VIPT offers B.Pharmacy., M.Pharm., PharmD. Programs. The College is Affiliated to the JNTU Kakinada, approved by the All India Council for Technical Education (AICTE), Pharmacy Council of India (PCI), Govt. of Andhra Pradesh. The College is ISO 9001:2015 & ISO 14001:2015 & ISO 45001:2018 Certified for its safety and waste disposal methods employed. The infrastructure available makes the college a conducive academic learning that provides students with good quality education in a clean, comfortable environment. The college is presently one of the largest graduate, postgraduate and research institutions in Andhra Pradesh imparting quality Pharmaceutical Education.

**RESOURCE PERSON**

**Mr. Mujeebuddin Sheik,**  
Founder and CEO,  
Clinosol Research.  
Visakhapatnam.

**PROFILE:** He did Masters in Pharmacology and Clinical Research, He spearheads partnerships with industry and professional associations enabling great opportunities for them and Clinosol students. Clinosol Research Private Limited is an ISO Certified Company that deals with Clinical Research Project Handling, Provides Resource Management to Clients as well as has its own training wing in the vertices of Clinical Research, Clinical Data Management, Pharmacovigilance, Medical Writing, Regulatory Affairs, and Clinical SAS Clinosol Research Private Limited is an ISO Certified Company that deals with Clinical Research Project Handling, Provides Resource Management to Clients as well as has its own training wing. Work experience as SME & Project Lead – CDM IQVIA, Principal Consultant, and Oracle. Team Lead, Parexel, Study designer, Accenture. CRA, Bioserve Clinical Research Pvt Ltd

**Local Organizing Committee:**

**Convener:**  
Mr. Vinod Kumar M  
Assistant Professor

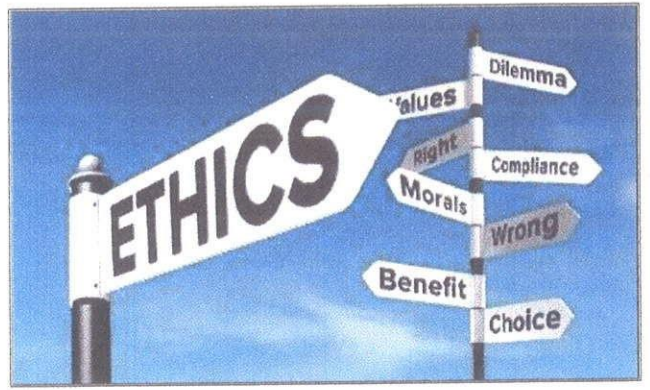

**Co-Convener:**  
Mrs. V. Jhansi Lakshmi  
Assistant Professor

## REPORT

*One day seminar was organised on "Ethics in clinical research"*

A one day seminar was organised on Ethics in clinical research on 06.09.2018. Convener Mr. Vinod Kumar Mugada welcomes the speaker of the session Mr. Mujeebuddin sheik and Principal Dr. Y.Srinivasa Rao to the Dias.

Principal Dr. Y.Srinivasa Rao introduced the speaker Mr. Mujeebuddin Sheik and inaugurated the session with welcome speech. Post inauguration Mr. Mujeebuddin Sheik interacted and delivered his talk on Ethics in Clinical Research with focuses largely on identifying and implementing the acceptable conditions for exposure of some individuals to risks and burdens for the benefit of society at large. Ethical guidelines for clinical research were formulated only after discovery of inhumane behaviour with participants during research experiments. The Nuremberg Code was the first international code laying ethical principles for clinical research. With increasing research all over, World Health Organization formulated guidelines in the form of Declaration of Helsinki in 1964. The US laid down its guidelines for ethical principles in the Belmont Report after discovery of the Tuskegee's Syphilis study. The Indian Council of Medical Research has laid down the 'Ethical Guidelines for Biomedical Research on Human Subjects' in the year 2000 which were revised in 2006. It gives twelve general principles to be followed by all biomedical researchers working in the country. The Ethics Committee stands as the bridge between the researcher and the ethical guidelines of the country. The basic responsibility of the Ethics Committee is to ensure an independent, competent and timely review of all ethical aspects of the project proposals received in order to safeguard the dignity, rights, safety and well-being of all actual or potential research participants. A well-documented informed consent process is the hallmark of any ethical research work. Informed consent respects individual's autonomy, to participate or not to participate in research. Concepts of vulnerable populations, therapeutic misconception and post trial access hold special importance in ethical conduct of research, especially in developing countries like India, where most of the research participants are uneducated and economically backward. Q & A Session was also held. Co convener of the programme Mrs. V. Jhansi Lakshmi concluded the session with vote of thanks.

## ABOUT THE INSTITUTION

Vignan Institute of Pharmaceutical Technology (VIPT) is one of the constituent colleges of Vignan Institutions well known for quality education with Global standards and Indian values. VIPT was established in 2006 with a view to provide job oriented professional courses in Pharmacy, VIPT offers B.Pharmacy., M.Pharm., PharmD. Programs. The College is Affiliated to the JNTU Kakinada, approved by the All India Council for Technical Education (AICTE), Pharmacy Council of India (PCI), Govt. of Andhra Pradesh. The College is ISO 9001:2015 & ISO 14001:2015 & ISO 45001:2018 Certified for its safety and waste disposal methods employed. The infrastructure available makes the college a conducive academic learning that provides students with good quality education in a clean, comfortable environment. The college is presently one of the largest graduate, postgraduate and research institutions in Andhra Pradesh imparting quality Pharmaceutical Education.

## RESOURCE PERSON

### Dr. Adinarayana Reddy

Assistant General Manager,  
Dr. Reddy's laboratories Pvt. Ltd

**PROFILE:** Professional background as Manager Formulation Research and Development, Shilpa Therapeutics, Associate Director - Delivery Manager - Product Development and Program Management, Dr. Reddy's Laboratories. Suven Nishtaa Pharma's Senior Research Scientist for Formulation Research and Development Graduated from Annamalai University and JNTUK, holds a PhD from Nagarjuna University, and has project management skills. He is also interested in business development, formulation research, and technology transfer until commercialization.

## Local Organizing Committee:

### Convener:

Dr. S. Satya Lakshmi  
Professor

### Co-Convener:

Mrs. V. Jhansi Lakshmi  
Assistant Professor

## REPORT

### One day Workshop on “Design and Analysis of Experiment”

A One day Workshop was organised on “Design and Analysis of Experiment” on 27.08.2018. Convener Dr. Satya Lakshmi S welcomes the speaker and principal on Dias and introduced the person. Principal Dr. Y.Srinivasa Rao inaugurated the session by introducing the resource person Dr. Adinarayana Reddy on to the Dias.

Post Inauguration Dr. Adinarayana Reddy started delivering his talk on Design and Analysis of Experiments is an effective tool for upgrading the level of measurement and assessment. In any design, planning or control problem the designer is faced with many alternatives. He/she is challenged to develop design approaches that can meet both quality and cost criteria. The way experiments are designed greatly affects the effective use of the experimental resources and the easiness with which the measured results can be analyzed. This paper does not present new evidence based on designed experiments. Its objective is solely to show how useful application of multifactor experiments is in a variety of circumstances and decision making scenarios. The paper reviews three published examples where this method was used in different contexts: quality control, flexible manufacturing systems (FMS) and logistics systems. The physical experiment has been carried out to improve the quality of a special type of batteries. The simulation experiment has been carried out to investigate the impact of several flexibility factors in a flexible manufacturing system. The numerical value of a complex analytical expression representing a customer oriented logistics performance measure has been calculated for different values of its parameters, i.e. the given numerical values of the investigated factors. It enabled a methodical examination of all factor effects and especially their interactions, thus shedding light on complex aspects of the logistics decision problem. In these examples, cases from different contexts were presented, enabling to view design of experiments as a powerful ingredient for improving decision making in a variety of circumstances. Q & A Session was also held.

## ABOUT THE INSTITUTION

Vignan Institute of Pharmaceutical Technology (VIPT) is one of the constituent colleges of Vignan Institutions well known for quality education with Global standards and Indian values. VIPT was established in 2006 with a view to provide job oriented professional courses in Pharmacy, VIPT offers B.Pharmacy, M.Pharm., PharmD. Programs. The College is Affiliated to the JNTU Kakinada, approved by the All India Council for Technical Education (AICTE), Pharmacy Council of India (PCI), Govt. of Andhra Pradesh. The College is ISO 9001:2015 & ISO 14001:2015 & ISO 45001:2018 Certified for its safety and waste disposal methods employed. The infrastructure available makes the college a conducive academic learning that provides students with good quality education in a clean, comfortable environment. The college is presently one of the largest graduate, postgraduate and research institutions in Andhra Pradesh imparting quality Pharmaceutical Education.

## RESOURCE PERSON

### Prof. J.Vijaya Ratna

AU College of Pharmaceutical Sciences,  
Visakhapatnam.

**PROFILE:** Professional experienced as Professor, College of Pharmaceutical Sciences, Andhra University. Doctorate in pharmaceutical science and Post graduate Diploma in Applied Statistics, Andhra University. Life membership in professional bodies like Pharmacists' organization for women Empowerment and Research (Indian Women Pharmacists' Association). Indian Association of Pharmaceutical Science and Technology Indian Hospital Pharmacists' Association. Member of Institutional Ethics Committee of King George Hospital, Visakhapatnam. Honored with Institutional Ethics Committee of King George Hospital, Visakhapatnam. She was expert in Pharmaceutical Technology and also have some published work in Clinical research and in Pharmaceutical Regulatory affairs.

### Local Organizing Committee:

**Convener:**  
Dr.P.V.Kamala kumari  
Professor

**Co-Convener:**  
Dr. S. Satya Lakshmi  
Associate Professor

## REPORT

### Seminar on "Research Methodology: Study Designs and Descriptive Studies."

A one day seminar was organized on Research methodology: study designs and descriptive studies organized on 11.08.2018.

Convener Dr. P.V.Kamala Kumari welcomed principal Dr.Y.Srinvasa Rao and speaker of the session Dr. J.Vijaya Ratna to the session. Dr. Y.Srinivasa Rao inaugurated the session and introduced the speaker Dr. J.Vijaya Ratna on to the Dias to deliver her talk on topic. Post inauguration Dr. J.Vijaya Ratna stressed on the point shared her views on first steps in planning a research study is the choice of study design. The available study designs are divided broadly into two types – observational and interventional. Of the various observational study designs, the descriptive design is the simplest. It allows the researcher to study and describe the distribution of one or more variables, without regard to any causal or other hypotheses. Descriptive studies can be of several types, namely, case reports, case series, cross-sectional studies, and ecological studies. In the first three of these, data are collected on individuals, whereas the last one uses aggregated data for groups. A case report refers to the description of a patient with an unusual disease or with simultaneous occurrence of more than one condition. A case series is similar, except that it is an aggregation of multiple (often only a few) similar cases. Many case reports and case series are anecdotal and of limited value. However, some of these bring to the fore a hitherto unrecognized disease and play an important role in advancing medical science. For instance, HIV/AIDS was first recognized through a case report of disseminated Kaposi's sarcoma in a young homosexual man, and a case series of such men with *Pneumocystis carinii* pneumonia. Studies with a cross-sectional study design involve the collection of information on the presence or level of one or more variables of interest (health-related characteristic), whether exposure (e.g., a risk factor) or outcome (e.g., a disease) as they exist in a defined population at one particular time. Q & A Session was also held. Co-convener Dr. S.Satya Lakshmi concluded the session with vote of thanks.

## REPORT

### Seminar on “Regulatory Requirements of Packaging Materials”

VIPT has conducted a one day seminar on “Regulatory Requirements of Packaging Materials” on 28.07.2018. Convener Dr. S.Satya Lakshmi welcomes Principal Dr. Y.Srinivasa Rao and Speaker of the session Dr. Adinarayana Reddy, AGM, Dr. Reddy’s Labs to the session.

Dr. Y.Srinivasa Rao inaugurated the session and introduced the speaker of the day on to the Dias to deliver his talk. Post inauguration, speaker Dr. Adinarayana Reddy shared his views on the title Regulatory Requirements of Packaging Materials and focussed on packaging Requirements, Regulations to be followed and Recyclable packing etc. Primary packaging for medicinal products and materials for the manufacture of primary packaging must be developed with great care or chosen from offers already on the market. The main reasons are the possible interactions with the content as well as the protection of the content and safety aspects during the following application. A comprehensive knowledge or characterisation of the packaging material is prerequisite for the subsequent use. According to the FDA Guideline "Container Closure Systems for Packaging Human Drugs and Biologics" (May 1999) each application should contain enough information to show that each proposed container system and its components are suitable for its intended use. This comprises: Protection (light, oxygen, humidity etc.) Compatibility, Safety (extraction study, toxicological evaluation), Performance and functionality Packaging material is at the focus of some regulatory developments at the moment. This type of seminar gives more information to students and enhances skills in students and faculty. Q & A Session was also held. Co-convener Mrs. K.Gana Manjusha had given vote of thanks.

## ABOUT THE INSTITUTION

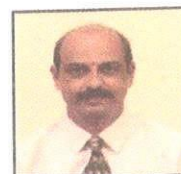

Vignan Institute of Pharmaceutical Technology (VIPT) is one of the constituent colleges of Vignan Institutions well known for quality education with Global standards and Indian values. VIPT was established in 2006 with a view to provide job oriented professional courses in Pharmacy, VIPT offers B.Pharmacy., M.Pharm., PharmD. Programs. The College is Affiliated to the JNTU Kakinada, approved by the All India Council for Technical Education (AICTE), Pharmacy Council of India (PCI), Govt. of Andhra Pradesh. The College is ISO 9001:2015 & ISO 14001:2015 & ISO 45001:2018 Certified for its safety and waste disposal methods employed. The infrastructure available makes the college a conducive academic learning that provides students with good quality education in a clean, comfortable environment. The college is presently one of the largest graduate, postgraduate and research institutions in Andhra Pradesh imparting quality Pharmaceutical Education.

## RESOURCE PERSON

### Prof. K V Ramana Murthy

Department of pharmaceutics  
Andhra University College of  
Pharmaceutical Sciences  
Visakhapatnam

**PROFILE:** Doctoral degree, Diploma in Applied Statistics from Andhra University. Professional expertise as Senior Professor, College of Pharmaceutical Sciences, AU. Professor (HAG) College of Pharmaceutical Sciences, AU. Honored with several awards like DR. L.V.G. NARGUND, Association of Pharmaceutical Teachers of India, Sristi-gandhian young technological innovation (GYTI) award as mentor, Dr. Sarvepalli radhakrishnan best academician of the year, APTI Teacher of the year award-2009, Association of Pharmaceutical Teachers of India, A. P. Scientist award-2007, Andhra Pradesh State Council of Science and Technology (APCOST). Principal investigators for Several Research projects from DST-WOS-A, AP State Council of Science and Technology, Hyderabad, MoES, DST PURSE, AP State Council of Science and Technology, UGC

## REPORT

### Seminar on: *New amendments in Indian patent law*

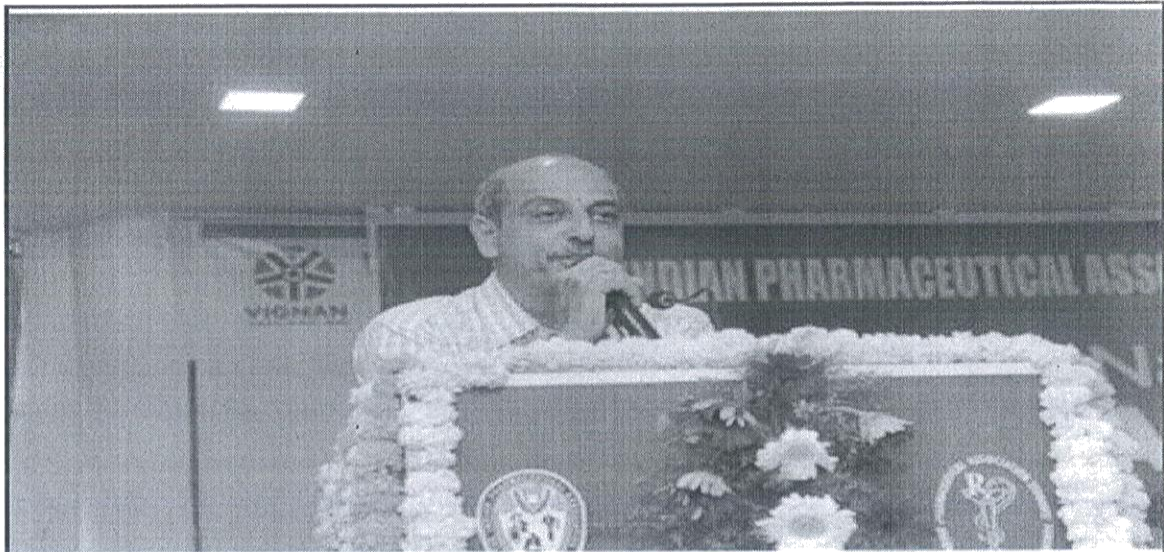

VIPT has conducted a one day seminar on "New amendments in Indian Patent Laws" on 01.03.2019.

Dr. D.Vasudha, programme convener welcomed the principal Dr. Y.Srinivasa Rao and speaker of the session Dr. K.V.Ramana Murthy on to Dias. Post welcomed. Y.Srinivasa Rao introduced the speaker and inaugurated the session.

Post inauguration speaker of the session Dr. K V Ramana Murthy, Professor, Andhra University College of Pharmaceutical Sciences delivered a wonderful lecture on the title new amendments in Indian Patent Laws and focussed on History, Scope and filing of patents and its Importance. Stressed on the points like Educational institutions engage in many research activities, where professors and teachers, and students generate several new technologies which need to be patented for facilitating commercialization of the same. At the time of applying for patents, the innovators have to apply for these patents in the name of the institutions which have to pay fees for large applicants, which are very high and thus work as a disincentive. In this regard and to encourage greater participation of the educational institutions, official fees payable by them in respect of various acts under the Patents Rules, 2003, have been reduced by way of the Patents (Amendment) Rules, 2021. Benefits related to 80% reduced fee for patent filing & prosecution have been extended to all educational institutions irrespective of them being Government-owned/ aided or private universities. This type of seminar gives more information to students and ideology in students and faculty will be developed. The total participants were 150 students. Q & A Session was also held. Co-convener Dr.Ch.Prasad given vote of thanks and concluded the session.

## RESOURCE PERSON

### Dr. N. Krishna

Group leader  
DIVIS Laboratories Pvt.Ltd.  
Visakhapatnam.

**PROFILE:** 16 years of Research Experience on Drug Development, Active Pharmaceutical Ingredients (API'S), intermediates (KSM), process related impurities, and its controls based on ICH guidelines and patent non-infringement. During the process development for API, I establish various CQA'S, CPP'S, CMA'S and control strategies. Impurity profile identification for API's and Intermediates (KSM's) Genotoxic evaluation for all starting materials, reagents, and intermediates as per ICH M7. Purge and spiking studies. Separation and identification of Organic and Natural products by using analytical techniques like Preparative HPLC, NMR (1D & 2D), LC-MS, GC-MS, I.R, and Mass spectrometry. Technical support towards Trouble shootings, Validations, Technology transfers, DMF filings and its deficiencies. Synthesized reference standard drugs and cannabinoid metabolites and their related substances for Korean FDA, South Korea.

### Local Organizing Committee:

#### Convener:

Dr. P.Chiranjeevi  
Professor

#### Co-Convener:

## REPORT

### Seminar on: *Indian Patent Laws -Indian Pharmaceutical Industry*

VIPT has conducted a one day seminar on “Indian Patent Laws -Indian Pharmaceutical Industry” on 14.03.2019. Convener of the Programme Dr. P. Chiranjeevi welcomed Principal Dr. Y. Srinivasa Rao and speaker of the session Dr N.Krishna, Group Leader, DIVIS LAB.

Principal, Dr. Y.Srinivasa Rao inaugurated the session and introduced the speaker by reading his profile and welcome to the Dias to deliver his talk on the topic of the session.

Post inauguration speaker of the session Dr N.Krishna, Group Leader, DIVIS LAB the speaker started his talk focussed on History, Scope and filing of patents and its Importance in Pharmaceutical Industries. Discussion various objective like Learn in-Depth Knowledge and the Process of Patent Law and how is it obtained. Duties/ Responsibilities of patentee. To analyse difference between Assignment and Licensing. Patent in Pharmaceutical Industry. Patent and Technological Inventions A patent is a legal monopoly granted by a government in return for public disclosure of an invention. A granted patent gives the proprietor the right to prevent others using the invention in the territory to which the patent applies. A patent does not, however, give a positive right to use an invention. There may be earlier patents for other inventions that an inventor may need to license to exploit his own invention. In most countries a patent can last for twenty years from the date of application. However this is usually dependent upon the payment of annual renewal fees to keep the patent in force. Patents can be obtained for inventions that, in general, are new and useful products and methods. Patentable inventions must involve an ‘inventive step’, which means that the invention must be distinguished from what was known previously (the ‘prior art’) by more than a trivial or obvious feature. A patentable invention could relate, for example, to an entirely new product, a new part for a more complex overall product, a new method of making a product or a new method of using a product. This type of seminar gives more information to students and ideology in students and faculty will be developed. The total participants were 135 students. Q & A Session was also held.

**ABOUT THE INSTITUTION**

Vignan Institute of Pharmaceutical Technology (VIPT) is one of the constituent colleges of Vignan Institutions well known for quality education with Global standards and Indian values. VIPT was established in 2006 with a view to provide job oriented professional courses in Pharmacy, VIPT offers B.Pharmacy., M.Pharm., PharmD. Programs. The College is Affiliated to the JNTU Kakinada, approved by the All India Council for Technical Education (AICTE), Pharmacy Council of India (PCI), Govt. of Andhra Pradesh. The College is ISO 9001:2015 & ISO 14001:2015 & ISO 45001:2018 Certified for its safety and waste disposal methods employed. The infrastructure available makes the college a conducive academic learning that provides students with good quality education in a clean, comfortable environment. The college is presently one of the largest graduate, postgraduate and research institutions in Andhra Pradesh imparting quality Pharmaceutical Education.

**RESOURCE PERSON**

**Dr. K. Bhanu Prasad**

MD, Apogen Remedies Pvt Ltd  
Genome Valley, Biotech Park, Hyderabad

**PROFILE:** Dr. Bhanu Prasad has over 20 years of hands on experience in Pharmaceutical Quality Control, Quality Assurance, GxP Practices, Documentation etc. in Top Pharmaceutical Industries of India and Canada. He was awarded Ph. D. for his thesis on Analytical Method Development and Validations in compliance with National, Regional & International Regulatory Guidelines. He was associated for about two decades with experience Indian and Canadian Pharmaceutical industries in Technology Transfer, Analytical Laboratory Management, Stability study, Instrument Calibration, Equipment Qualification (DQ, IQ, OQ, PQ), Facility Validation, Analytical Method Validation, Process Validation, Cleaning Validation, Documentation and Document Review, Employee induction / Orientation and on the job Training, Vendor Qualification, Internal and External GMP Audits. Since 1990 he served in such as PharmEng Technology Inc. Toronto, Canada, Tor pharm Inc., Toronto, Canada, DC labs Ltd., Toronto, Canada.

## REPORT

Seminar was organised on *Statistical tools for Regulatory Compliance, Pharmaceutical Control and Development*:

A two day seminar was organised on Statistical tools for Regulatory Compliance, Pharmaceutical Control and Development from 14<sup>th</sup> to 15<sup>th</sup> February 2019 by VIPT, Duvvada. Student from B.Pharmacy programme attended this seminar.

Convener Mr. P.N.Mallikarjun welcomed Dr.Y.Srinivasa Rao, Principal and speaker Dr. K.Bhanu Prasad to the session. Dr.Y. Srinivasa Rao, Principal, VIPT delivered a welcome speech enlightened about the seminar and importance attached to the seminar and introduced the speaker to the session and asked him to deliver his valuable talk on topic of the day.

Post inauguration, the speaker Dr.K.Bhanu Prasad MD, Apogen Remedies Pvt Ltd, Genome Valley, Biotech Park, Hyderabad gave his valuable presentation covering the topics on overview of statistical thinking and methods in the R&D and manufacturing functions of the pharmaceutical industry, history of pharmaceutical quality and regulation, various phases of pharmaceutical development, basic quality and statistical tools employed, emerging statistical methods, the impact of statistical software and information technology and the role of statisticians in pharmaceutical development and manufacturing. Q & A Session was also held.

The Co-convener Mrs.N.Madhuri Concluded the session with vote of thanks.

## ABOUT THE INSTITUTION

Vignan Institute of Pharmaceutical Technology (VIPT) is one of the constituent colleges of Vignan Institutions well known for quality education with Global standards and Indian values. VIPT was established in 2006 with a view to provide job oriented professional courses in Pharmacy, VIPT offers B.Pharmacy., M.Pharm., PharmD. Programs. The College is Affiliated to the JNTU Kakinada, approved by the All India Council for Technical Education (AICTE), Pharmacy Council of India (PCI), Govt. of Andhra Pradesh. The College is ISO 9001:2015 & ISO 14001:2015 & ISO 45001:2018 Certified for its safety and waste disposal methods employed. The infrastructure available makes the college a conducive academic learning that provides students with good quality education in a clean, comfortable environment. The college is presently one of the largest graduate, postgraduate and research institutions in Andhra Pradesh imparting quality Pharmaceutical Education.

## RESOURCE PERSON

### Prof. J.Vijaya Ratna

AU College of Pharmaceutical Sciences,  
Visakhapatnam.

**PROFILE:** Professional experienced as Professor, College of Pharmaceutical Sciences, Andhra University. Doctorate in pharmaceutical science and Post graduate Diploma in Applied Statistics, Andhra University. Life membership in professional bodies like Pharmacists' organization for women Empowerment and Research (Indian Women Pharmacists' Association). Indian Association of Pharmaceutical Science and Technology Indian Hospital Pharmacists' Association. Member of Institutional Ethics Committee of King George Hospital, Visakhapatnam. Honored with Institutional Ethics Committee of King George Hospital, Visakhapatnam. She was expert in Pharmaceutical Technology and also have some published work in Clinical research and in Pharmaceutical Regulatory affairs.

### Local Organizing Committee:

**Convener:**  
Dr. D.Vasudha  
Associate Professor

**Co-Convener:**  
Dr. Santosh Kumar Ranajit  
Assistant Professor

## REPORT

Seminar on *Non linear Regression analysis and its application in Pharmacy: A Research Tool*.

A two days seminar was organised on *Non linear Regression analysis and its application in Pharmacy: A Research Tool* from 07<sup>th</sup> to 08<sup>th</sup> January 2019 by VIPT, Duvvada. B.Pharmacy and Pharm.D programme students attended this seminar.

Programme convener Dr. D.Vasudha welcomed principal Dr. Y.Srinivasa Rao and speaker of the session Dr. J.Vijaya Ratna to the session. Dr. Y. Srinivasa Rao, Principal, VIPT inaugurated the session and introduced the speaker of the session enlightened about the seminar and importance attached to the seminar.

After inauguration, the speaker Prof. J.Vijaya Ratna, AUCOPS gave her valuable presentation covering the topics on overview of potential difficulties in applying the regression model, correlation coefficients approach, standard errors difficulties using pair wise plots for drug design and analysis. In statistics, nonlinear regression is a form of regression analysis in which observational data are modelled by a function which is a nonlinear combination of the model parameters and depends on one or more independent variables. The data are fitted by a method of successive approximations. The best-fit curve is often assumed to be that which minimizes the sum of squared residuals. This is the ordinary least squares (OLS) approach. However, in cases where the dependent variable does not have constant variance, a sum of weighted squared residuals may be minimized; see weighted least squares. Each weight should ideally be equal to the reciprocal of the variance of the observation, but weights may be recomputed on each iteration. in an iteratively weighted least squares algorithm.

Q & A Session was also held.

The Co-convener Dr. Santosh Kumar Ranajit. Associate professor thanked the management of VIPT for giving support and encouraging the team to organize the seminar. Total of 116 students participated in the seminar. Feedback was taken from the participants.

## REPORT

Two days workshop was organised on *Research Designs in Pharmacy Practice*:

A two days workshop was organised on Research Designs in Pharmacy Practice from 06<sup>th</sup> to 07<sup>th</sup> December 2018 by VIPT, Duvvada. Student participants from B.Pharmacy attended this seminar.

Dr.Y. Srinivasa Rao, Principal, VIPT delivered a welcome speech enlightened about the seminar and importance attached to the seminar.

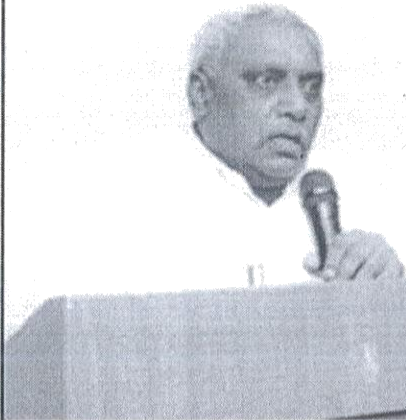

After inauguration, the speaker Prof. B.Ganga Rao, AUCOPS gave his valuable presentation covering the topics on overview to identify new areas for improved health service delivery and rigorously evaluate new services in pharmacy. Practice-based research, appropriate use of robust and rigorous methodologies. The need for evidence to inform policy and practice in pharmacy is becoming increasingly important. In parallel, clinical pharmacy and practice research is evolving. Research evidence should be used to identify new areas for improved health service delivery and rigorously evaluate new services in pharmacy. The generation of such evidence through practice-based research should be predicated on appropriate use of robust and rigorous methodologies. In addition to the quantitative and qualitative approaches used in pharmacy practice research, mixed methods and other novel approaches are increasingly being applied in pharmacy practice research. Approaches such as discrete choice experiments, Delphi techniques, and simulated client technique are now commonly used in pharmacy practice research. Therefore, pharmacy practice researchers need to be competent in the selection, application, and interpretation of these methodological and analytical approaches. Introduction to traditional and novel study designs and methodologies that is particularly pertinent to clinical pharmacy and practice research. Q & A Session was also held.

The convener Mrs. K.Gana Manjusha, Associate professor thanked the management of VIPT for giving support and encouraging the team to organize the seminar. Total of 142 students participated in the seminar.

## ABOUT THE INSTITUTION

Vignan Institute of Pharmaceutical Technology (VIPT) is one of the constituent colleges of Vignan Institutions well known for quality education with GLOBAL STANDARDS AND INDIAN VALUES. VIPT was established in 2006 with a view to provide job oriented professional courses in Pharmacy, VIPT offers B.Pharmacy, M.Pharm., PharmD. Programs. The College is Affiliated to the JNTU Kakinada, approved by the All India Council for Technical Education (AICTE), Pharmacy Council of India (PCI), Govt. of Andhra Pradesh. The College is ISO 9001:2015 & ISO 14001:2015 & ISO 45001:2018 Certified for its safety and waste disposal methods employed. The infrastructure available makes the college a conducive academic learning that provides students with good quality education in a clean, comfortable environment. The college is presently one of the largest graduate, postgraduate and research institutions in Andhra Pradesh imparting quality Pharmaceutical Education.

## RESOURCE PERSON

### Dr Y. Rajendra Prasad

Professor,  
AU College of Pharmaceutical Sciences  
Visakhapatnam

**PROFILE:** Professional Possess about 30 years of teaching /industrial/research experience. Currently professor and senior most faculty in pharmaceutical chemistry division of AU College of Pharmacy, Andhra University. Published around 130 scientific articles in National and International journals of repute, 70 students took Ph. D under his guidance, executed research projects worth 25 million rupees, won many awards including the AP State Govt. Best Teacher Award and Andhra University Best Researcher. Life time member of Andhra Pradesh teacher of India (APTI), member of Expert committee for AP Pollution control board, Visakhapatnam. PI for many funded projects from AICTE MODROBS, marine organisms of Indian ocean studies.

### Local Organizing Committee:

**Convener:**  
Dr.K.Purna Nagashree,  
Associate Professor

**Co-Convener:**  
Dr. D. Vasudha,  
Associate Professor

## REPORT

### Seminar on *Software based approaches for drug designing and development:*

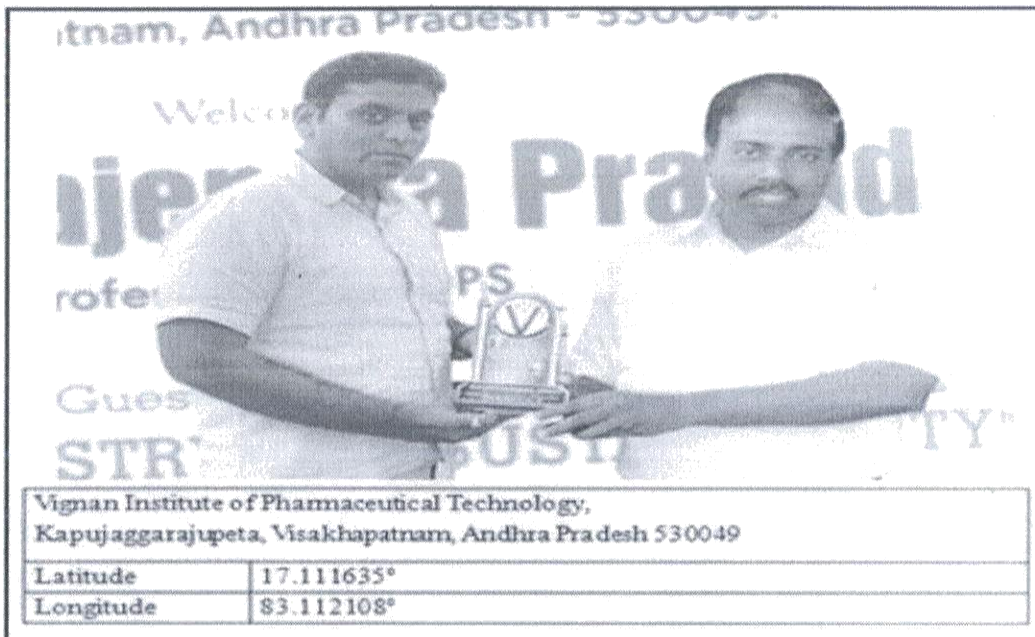

A two day seminar was organised on Software based approaches for drug designing and development on 26.11.2018 and 27.11.2018. Convener Dr. K.Purna Nagashree welcomed Dr. Y.Srinivasa Rao, Principal and Speaker of the day Dr. Y.Rajendra Prasad on to the session. Dr. Y.Srinivasa Rao inaugurated session and introduced the speaker of the day on to the session to deliver his view on the topic of the session.

Post inauguration, Dr.Y.Rajendra Prasad interacted and shared his views on Drug discovery include drug designing and development, is a multifarious and expensive endeavour, where least number of drugs that pass the clinical trials makes it to market. Software based drug discovery and development methods have major role in the development of bioactive compounds for over last three decades. Novel software based methods such as molecular modelling; structure-based drug design, structure-based virtual screening, ligand interaction and molecular dynamics are considered to be powerful tool for investigation of pharmacokinetic and pharmacodynamic properties of drug, and structural activity relationship between ligand and its target. Computational approaches such as docking confer interaction of small molecules with structural macromolecules and thereby hit identification and lead optimization. These methods are faster, and accurately provide valuable insights of experimental findings and mechanisms of action. In addition, appropriate implementation of these techniques could lead to a reduction in cost of drug designing and development. Currently in biomedicine sciences these software are exhibiting imperative role in the different phases of drug discovery. The review discusses working principle and successful applications of most commonly used software for drug designing and development. The session is opened for Questionnaire which made the session more interactive between speaker and students.

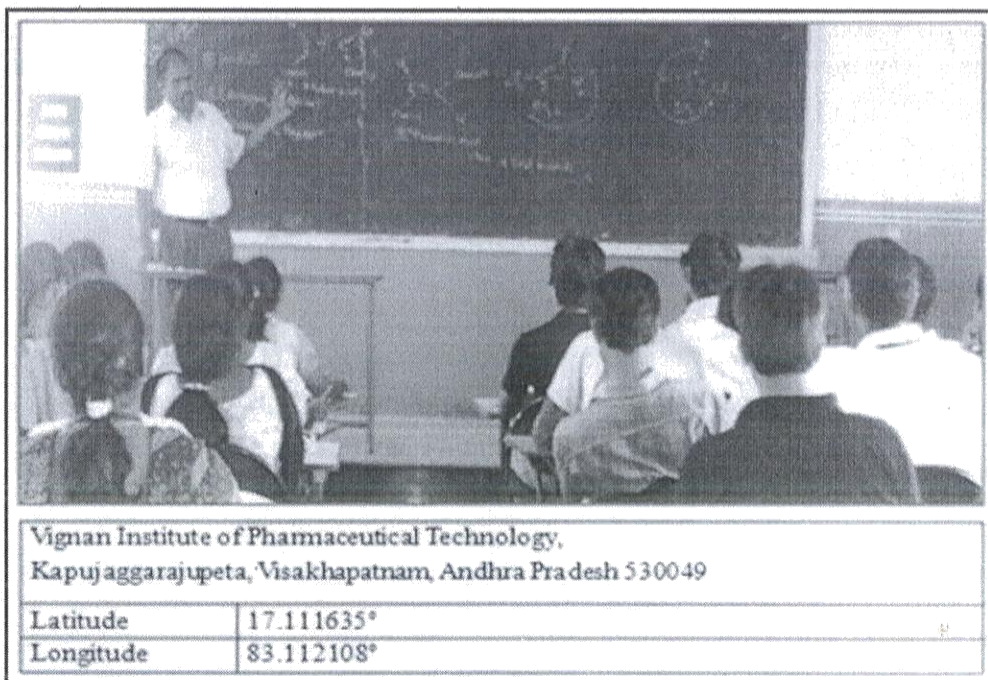

Co-convener Dr. D.Vasudha concluded the session with vote of thanks.

## REPORT

### **Seminar on: *Future emphasis area for a pharmacy course on leadership and leading change***

A one day seminar was organised on Future emphasis area for a pharmacy course on leadership and leading change on 09.11.2018. Convener Dr. K. Raj Kiran welcomes the speaker of the session Dr. Dakshina Murthy Ch. And Principal Dr. Y.Srinivasa Rao to the Dias.

Principal Dr. Y.Srinivasa Rao inaugurated the session by welcoming the speaker of the day Dr. Ch. Dakshina Murthy on to the Dias for this valuable talk on Future emphasis area for a Pharmacy course

Post inauguration the speaker of the session Dr. Ch. Dakshina Murthy interacted and delivered his talk on the session topic. This seminar is to develop and implement a course that develops pharmacy students' leadership skills and encourages them to become leaders within the profession.

A leadership course series was offered to pharmacy students on 2 campuses. The series incorporated didactic, experiential, and self-directed learning activities, and focused on developing core leadership skills, self-awareness, and awareness of the process for leading change. Students reported increased knowledge and confidence in their ability to initiate and lead efforts for change.

The learning activities students' valued most were the Strengths Finder assessment (67% of students rated "very useful") and a Leadership Networking Partners (LNP) program (83% of students rated "very useful"). Teaching leadership skills poses a significant challenge in curriculum development and requires multifaceted course design elements that resonate with students and engage the practice community. Addressing these requirements results in a high level of student engagement and a desire to continue the development of leadership skills. The session is opened for Questionnaire which made the session more interactive between speaker and students.

Two days workshop on "*Procedures on Obtaining and Writing a Patent*":

A two day workshop was organised on Procedures on obtaining and writing a patent was organized on 16.10.2018 and 17.10.2018.

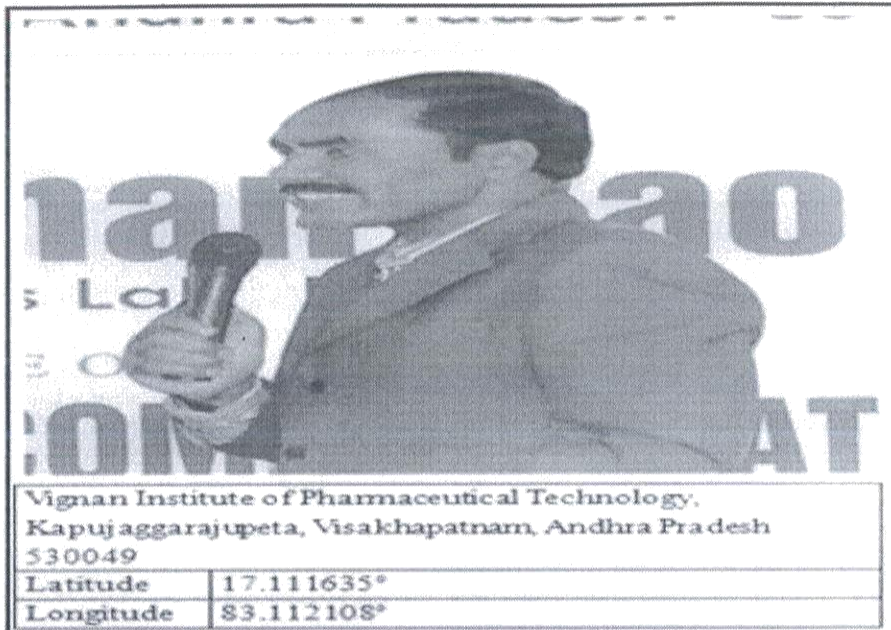

Programme convener Dr. M.Saritha welcomed principal Dr.Y.Srinivasa Rao and speaker of the session Mr. K.V.Mohan Rao, SMT Manager, Dr.Reddys Laboratories to the session.

Dr. Y.Srinivasa Rao inaugurated the session and introduced the speaker of the session Mr. K.V.Mohan Rao. Post inauguration, the speaker of the session Mr. K.V.Mohan Rao presents guidelines for students writing their first patent in the field of computer science and electronic/computer engineering. The set of guidelines is comprehensive and presents a step-by-step approach that allows beginners to produce the text description for their first patent. A patent is composed of four sections: Abstract, Invention description, figures and claims. The part that has legal value is the claim section, which can contain several claims. The scope of protection of a patent is given by the text of the claims interpreted with the help of the invention description and the figures. Patents follow what is called the all element rule, which says that to infringe a patent a product has to have all elements listed in a single claim. The part of the patent that has legal value is the claim section. The legal value of the patent will be determined by the content of the claims, interpreted with the help of the descriptive report. One very important point to check is to verify if the terms used in the claims is supported by the descriptive report. The session is opened for Questionnaire which made the session more interactive between speaker and students.

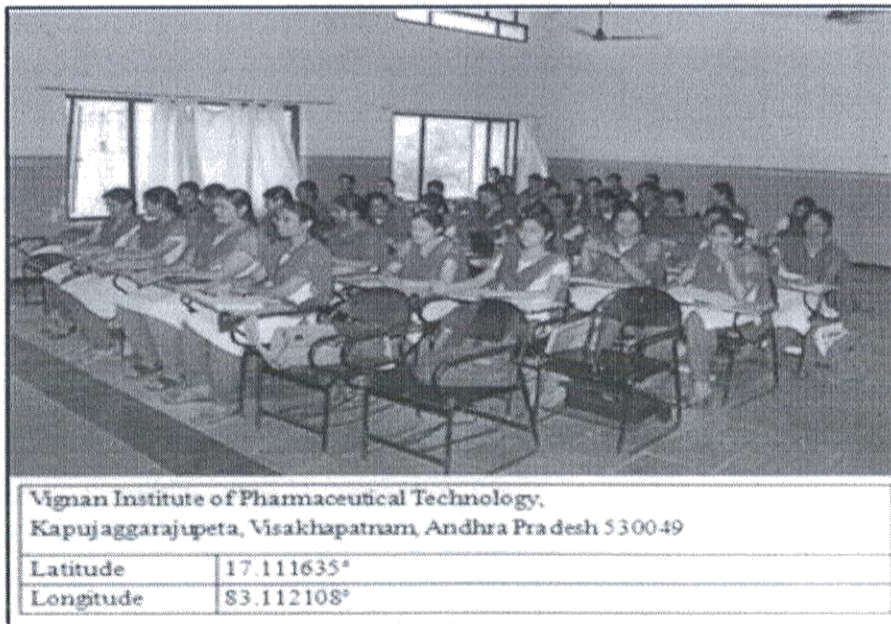

Co-convener of the programme Mr. Vinod Kumar Mugada concluded the session by giving vote of thanks.

## REPORT

Seminar on *“Inculcating Leadership Qualities in Student to Entrepreneur Transition.”*

A one day seminar was organised on **“Inculcating Leadership Qualities in Student to Entrepreneur Transition”** on 06-10-2018.

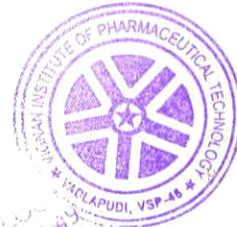

Convener of the Programme Mr. P. Balakrishnaiah welcomed Principal Dr. Y. Srinivasa Rao and speaker of the session Dr. A.Ramakisan, Deputy Drug controller.

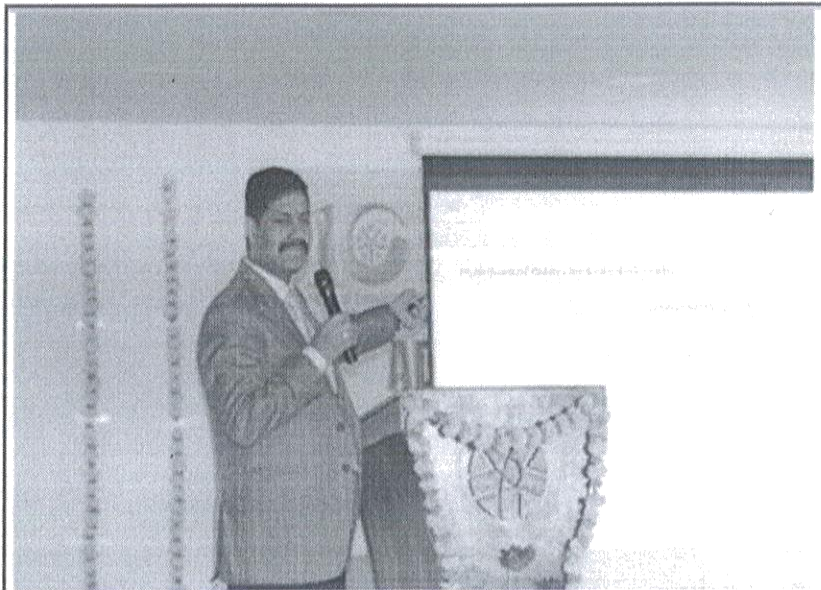

Principal, Dr. Y.Srinivasa Rao inaugurated the session and introduced the speaker by reading his profile and welcome to the Dias to deliver his talk on the topic of the session.

Post inauguration the speaker started his talk and emphasized the role of leadership qualities in transforming a student into entrepreneur. He motivated the students with wonderful leadership ideas in making an entrepreneur out of a student. He emphasized that this seminar is very important to have a impressive personality and also to inculcate leadership skills, communication and inter personal skills. The session covered on aspects, Business opportunities in Pharmaceutical Industry, Technical Assistant Facilities, Protection of Business Idea (Intellectual Rights). He also mentioned leadership represents one of the essential aspects which can surely lead to successful management and effective team work towards achieving the set goals of an institution. He explained knowledge, methodology, insights, skills and practical approaches to better explain what leadership is. A programme was huge success and total of 104 students attended the session & A Session was also held.

Co-convener Mr. Vinod Kumar Mugada concluded the session with a vote of thanks.

## REPORT

### *Seminar on Leading Entrepreneurship Development:*

A one day seminar was organised on “**Leading Entrepreneurship Development**” on 26.09.2018

Convener of the Programme Mr. M. Trinadha Rao welcomed Principal Dr. Y. Srinivasa Rao and speaker of the session Mr. V.J Srinivas, HR, Dr Reddy’s Lab Pvt Ltd.

Principal, Dr. Y.Srinivasa Rao inaugurated the session and introduced the speaker by reading his profile and welcome to the Dias to deliver his talk on the topic of the session.

Post inauguration, speaker of the session Mr. V.J Srinivas , HR, Dr Reddy’s Lab Pvt Ltd. emphasized the role of Entrepreneurship as a critical role to play in sustainable development and poverty eradication. He emphasized it has the potential to stimulate economic growth through job creation; help formalize businesses; create opportunities for and thereby empower disadvantaged groups such as youth and women; and strengthen local productive capacity by developing linkages with transnational corporations and thereby indirectly maximize the impact of foreign investment. . He emphasized that this seminar is very important to have a impressive personality and also to inculcate leadership skills, communication and inter personal skills. The session covered on aspects, Business opportunities in Pharmaceutical Industry, Technical Assistant Facilities, Protection of Business Idea (Intellectual Rights He urged the students that, given the growing importance and visible impact of entrepreneurship in wealth creation and job creation, they should regard it as critical to India's growth and development. He explained knowledge, methodology, insights, skills and practical approaches to better explain what leadership is. A total of 100 students attended the seminar. Q & A Session was also held.

## ABOUT THE INSTITUTION

Vignan Institute of Pharmaceutical Technology (VIPT) is one of the constituent colleges of Vignan Institutions well known for quality education with Global standards and Indian values. VIPT was established in 2006 with a view to provide job oriented professional courses in Pharmacy, VIPT offers B.Pharmacy., M.Pharm., PharmD. Programs. The College is Affiliated to the JNTU Kakinada, approved by the All India Council for Technical Education (AICTE), Pharmacy Council of India (PCI), Govt. of Andhra Pradesh. The College is ISO 9001:2015 & ISO 14001:2015 & ISO 45001:2018 Certified for its safety and waste disposal methods employed. The infrastructure available makes the college a conducive academic learning that provides students with good quality education in a clean, comfortable environment. The college is presently one of the largest graduate, postgraduate and research institutions in Andhra Pradesh imparting quality Pharmaceutical Education.

## RESOURCE PERSON

**Prof.K.P.R.Chowdary,**  
Former Principal  
AU College of Pharmaceutical Sciences  
Visakhapatnam

**PROFILE:** Professional experience as Convener of SSC, Professor, HOD and Principal of Andhra University College of Pharmaceutical Sciences, Visakhapatnam, Andhra Pradesh. Principal, Siddhartha College of Pharmaceutical Sciences, Vijayawada. Been research advisor for Esai pharmaceutical and many MNCs. Authored many books like Research Methodologies and Bio-Statistics. Pharmaceutical Quality Assurance. Clinical Research Pharmacovigilance. recipient of Outstanding Contribution to Pharmaceutical Education by APTI, Prof. C. J. Shishoo Award for Research in Pharmaceutical Sciences by APTI, Best Principal award (National Award) by APTI, Best Teacher Award by Govt of A.P (Andhra Pradesh), Fellowship Award from Association of Biotechnology and Pharmacy, Dr. Sarvepalli Radakrishnan Best Academician Award, Andhra Pradesh Scientist Award by Govt of A.P

## LOCAL ORGANIZING COMMITTEE:

**Convener:**  
Dr. P.V. Kamala Kumari  
Professor

**Co-Convener:**  
Mrs. A. Swathi Annapurna  
Assistant Professor

## REPORT

### *Seminar on Entrepreneurship in India.*

A two days seminar was organised on “**Entrepreneurship in India**” from 12-07-2018 to 13-07-2018. Prof.K.P.R.Chowdary, Resource person, as chief guest. The guest emphasized successful Entrepreneurship ecosystem is the function of a number of factors working in tandem. Key ‘Entrepreneurial Triggers’ are: Individual Motivations, Socio-cultural Factors, Access to Early-Stage Finance Education and Business Environment. He motivated the students, given the increasing significance and visible impact of Entrepreneurship in wealth-creation and employment-generation, they should consider it critical to India’s growth and development. The session covered on aspects, Business opportunities in Pharmaceutical Industry, Technical Assistant Facilities, Protection of Business Idea (Intellectual Rights). He also mentioned leadership represents one of the essential aspects which can surely lead to successful management and effective team work towards achieving the set goals of an institution. He explained Entrepreneurship as the professional application of knowledge, skills and competencies and/or of monetizing a new idea, by an individual or a set of people by launching an enterprise de novo or diversifying from an existing one, thus to pursue growth while generating wealth, employment and social good’. Q & A Session was also held; Programme convener Dr. P.V.Kamala Kumari concluded the session by vote of thanks.
