

ABOUT THE INSTITUTION

Vignan Institute of Pharmaceutical Technology (VIPT) is one of the constituent colleges of Vignan Institutions well known for quality education with Global standards and Indian values. VIPT was established in 2006 with a view to provide job oriented professional courses in Pharmacy, VIPT offers B.Pharmacy., M.Pharm., PharmD. Programs. The College is Affiliated to the JNTU Kakinada, approved by the All India Council for Technical Education (AICTE), Pharmacy Council of India (PCI), Govt. of Andhra Pradesh. The College is ISO 9001:2015 & ISO 14001:2015 & ISO 45001:2018 Certified for its safety and waste disposal methods employed. The infrastructure available makes the college a conducive academic learning that provides students with good quality education in a clean, comfortable environment. The college is presently one of the largest graduate, postgraduate and research institutions in Andhra Pradesh imparting quality Pharmaceutical Education.

RESOURCE PERSON

Prof. P.V. Kamala Kumari,
VIPT - Duvvada

PROFILE: Currently working as an Professor in Pharmaceutical Sciences with a teaching experience of about 14 years. Area of research interest lies in Pharmaceutical Biotechnology and Pharmaceutical Technology. Involved actively as a member of various committees in organizing various conferences. Has to the credit more than 50 papers in Journals of National and International repute. Served the university in various capacities such as Question paper setter, Reviewer, Internal Examiner, External Examiner, and Valuator. Guiding and motivating the students towards technological research remains the core of research vision.

Local Organizing Committee:

Convener:
Mr. P.N.Mallikarjun,
Associate Professor

Co-Convener:
Ms.K.Srilekhya,
Assistant Professor

Interested candidates please contact and enroll.

REPORT

Workshop was organized on *Design of Experiments: Workshop on Research Methodology:*

A One day workshop was organized on *Design of Experiments: Workshop on Research Methodology* from 7th May 2022 by VIPT, Duvvada. B.Pharmacy and Pharma.D students attended this workshop.

The Convener Mr. P.N.Mallikarjun, Associate Professor VIPT delivered a welcome speech enlightened about the workshop and importance attached to the workshop.

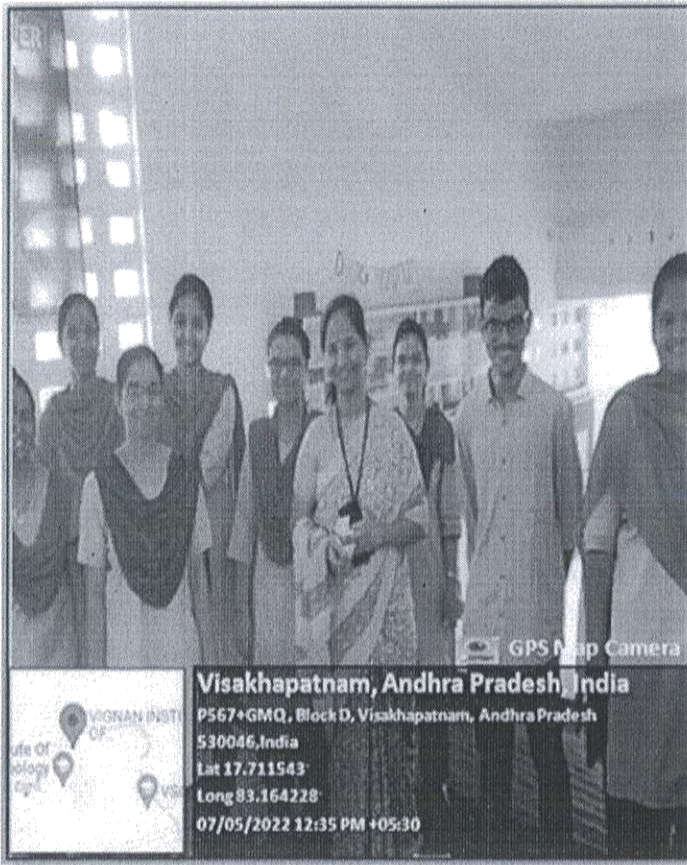

After inauguration, the speaker Prof. P.V.Kamala Kumari, Vignan Institute of Pharmaceutical Technology, Duvvada gave her valuable presentation covering the topics on Design of Experiments is an effective tool for upgrading the level of measurement and assessment. In any design, planning or control problem the designer is faced with many alternatives. He/she is challenged to develop design approaches that can meet both quality and cost criteria. The way experiments are designed greatly affects the effective use of the experimental resources and the easiness with which the measured results can be analyzed. There are three published reviews examples where this method was used in different contexts: quality control, flexible manufacturing systems (FMS) and logistics systems. The physical experiment has been carried out to improve the quality of a special type of batteries. The simulation experiment has been carried out to investigate the impact of several flexibility factors in a flexible manufacturing system. The numerical value of a complex analytical expression representing a customer oriented logistics performance measure has been calculated for different values of its parameters, i.e. the given numerical values of the investigated factors. It enabled a methodical examination of all factor effects and especially their interactions, thus shedding light on complex aspects of the logistics decision problem. In these examples, cases from different contexts were presented, enabling to view design of experiments as a powerful ingredient for improving decision making in a variety of circumstances.

The Co-Convener Ms.K.Srilekha, Assistant Professor thanked the management of VIPT for giving support and encouraging the team to organize the workshop. Q & A Session was also held.

REPORT

Seminar was organized on *Strategies to Eliminate Error/Bias in Research*:

A One day seminar was organized on Strategies to Eliminate Error/Bias in Research on 03.05.2022 by VIPT, Duvvada. B.Pharmacy and Pharma.D students attended this seminar.

The Convener Mrs. V.Jhansi Lakshmi Assistant Professor, VIPT delivered a welcome speech enlightened about the seminar and importance attached to the seminar.

After inauguration, the speaker Dr. N. Ramya, Professor, Vignan Institute of Information Technology, Duvvada gave her valuable presentation covering the topics on Strategies to Eliminate Error/Bias in Experiments is the act of a researcher influencing the process of a systematic investigation either knowingly or unknowingly. Research bias is one of the reasons for the poor validity of research outcomes. It is a huge obstacle for researchers in achieving credibility and accuracy. Dealing with numbers and statistics is not as susceptible to bias as doing it with qualitative facts. When making qualitative researches, it is easy to make some selection, interview or measurement bias. Different types of bias are Design Bias, Participant Bias.

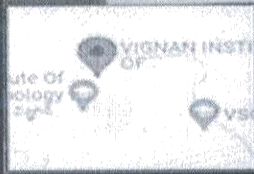

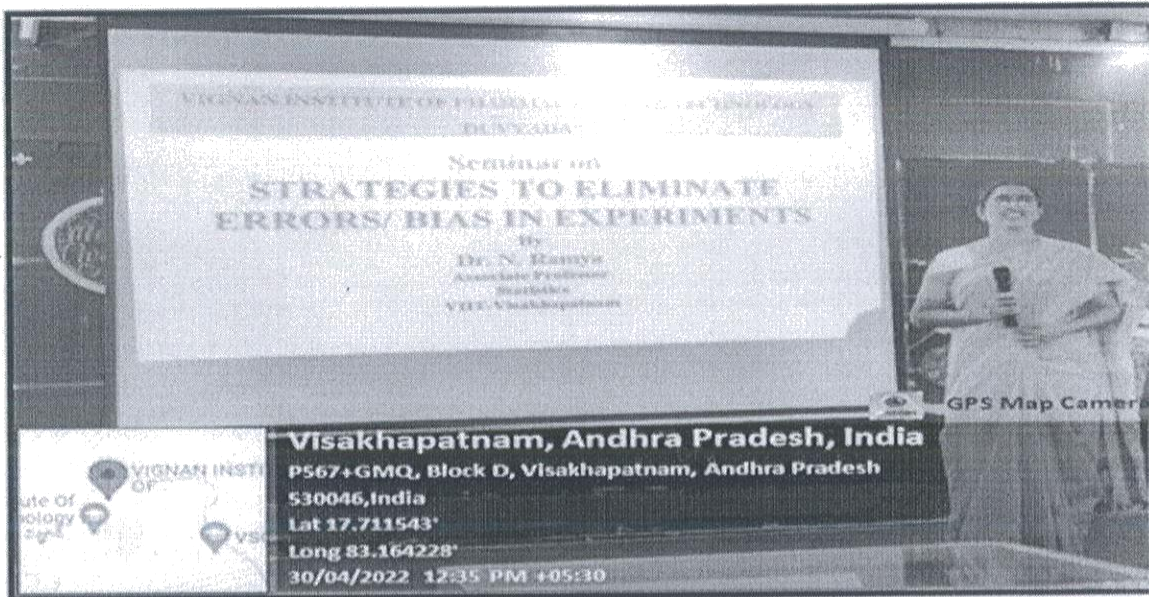

Publication Bias, Analysis Bias, Data Collection Bias and Procedural Bias. Strategies to eliminate bias are create a thorough research plan, evaluate your hypothesis, ask general questions before specifying, place topics into separate categories and summarize answers using original context.

The Co-Convener Ms. R. Syamala, Assistant Professor thanked the management of VIPT for giving support and encouraging the team to organize the seminar. Q & A Session was also held.

REPORT

Seminar was organized on *Corporate and Strategic Entrepreneurship*:

A One day seminar was organized on Corporate and Strategic Entrepreneurship on 09.04.2022 by VIPT, Duvvada. B.Pharmacy and PharmD students attended this seminar.

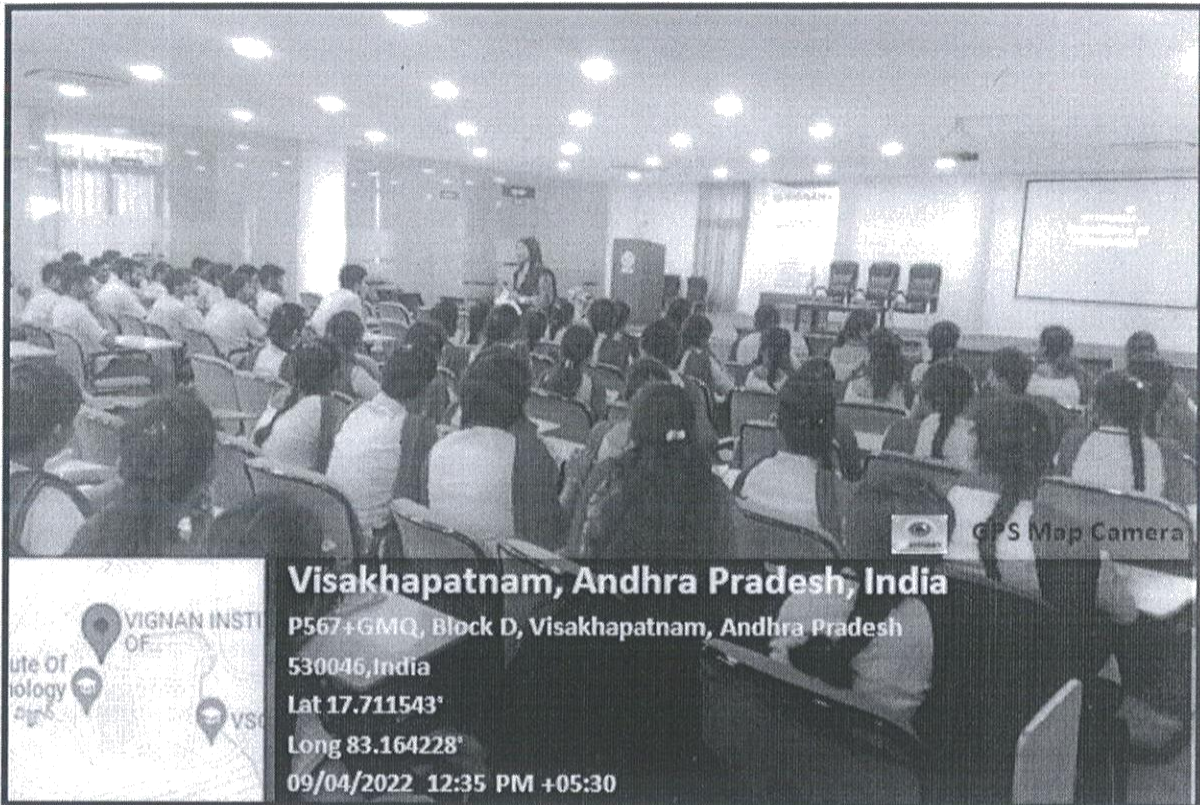

The Convener Dr. K. Gana Manjusha, Associate Professor, VIPT delivered a welcome speech enlightened about the seminar and importance attached to the seminar.

After inauguration, the speaker Dr Rojeena Mathew, HOD, Training Head, VIIT Duvvada gave her valuable presentation covering the topics on Corporate and Strategic Entrepreneurship is an current competitive environment is rapidly changing. In today's business environment, organizations are having an increasingly difficult time in creating competitive advantages. The main reason for this is the ease in contemporary business life for organizations to reach the same or very similar resources. Firms need innovation to create and sustain success and effectiveness. In such a highly competitive business life, the importance of creating competitive advantages for organizations based on unique resources is increasing. Corporate entrepreneurship strategy is essential and vital for achieving strategic goals of firms. Thus, organizations can form competitive advantages by taking advantage of their employees entrepreneurship skills. A competitive advantage based on corporate entrepreneurship strategy will benefit the organization in a not easy to imitate form. In this study, we discuss corporate entrepreneurship as a key tool of competition. Corporate entrepreneurship, which is becoming ever more important, is aimed to transform into a strategy for fostering competitive advantage. Through the novel model presented, the antecedents, the process, and the consequences of corporate entrepreneurship strategy are highlighted and the impacts of such a strategy on competitive advantage are discussed.

The Co-Convener Mrs. D. Aruna Kumari, Assistant Professor thanked the management of VIPT for giving support and encouraging the team to organize the seminar. Q & A Session was also held.

REPORT

Seminar was organized on *Patent Amendment Act*:

A One day seminar was organized on Patent Amendment Act on 26.03.2022 by VIPT, Duvvada. B.Pharmacy and Pharm.D students attended this seminar.

The Convener Dr. P.V.Kamala Kumari, Professor, VIPT delivered a welcome speech enlightened about the seminar and importance attached to the seminar.

After inauguration, the speaker Prof. K.V.Ramana Murthy, AU College of pharmaceutical sciences Visakhapatnam gave his valuable presentation covering the topics on Patent Amendment Act is also called the Patents (Amendment) Act, 2005. This principal law for patenting system in India came into force in the year 1972. It replaced the Indian Patents and Designs Act 1911. The Act was amended by the Patents (Amendment) Act, 2005, wherein product patent was extended to all fields of technology including food, drugs, chemicals and microorganisms. After the amendment, the provisions relating to Exclusive Marketing Rights (EMRs) have been repealed, and a provision for enabling grant of compulsory license has been introduced. The provisions relating to pre-grant and post-grant opposition, Amendment of section 2, 3, 5,7,8,9,10,11 have also been discussed.

The Co-Convener Ms. U. Bhavani, Assistant Professor thanked the management of VIPT for giving support and encouraging the team to organize the seminar. Q & A Session was also held.

REPORT

Seminar was organized on *Intellectual Property Rights*:

A One day seminar was organized on Intellectual Property Rights on 17.03.2022 by VIPT, Duvvada. B.Pharmacy and Pharm.D students attended this seminar.

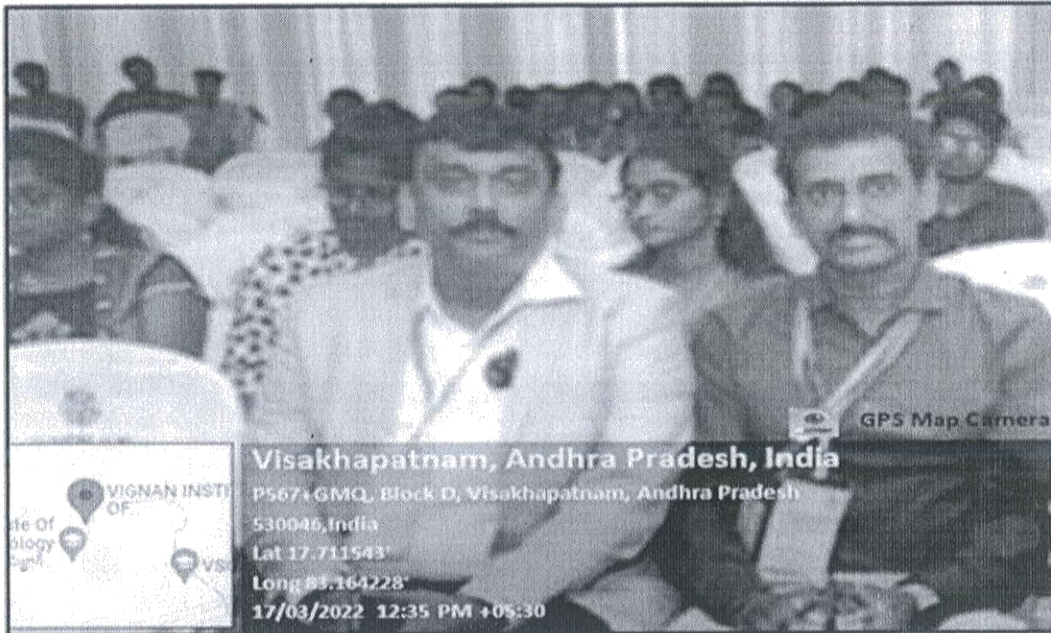

The Convener Mr. P.N.Mallikarjun Associate Professor, VIPT delivered a welcome speech enlightened about the seminar and importance attached to the seminar.

After inauguration, the speaker Dr. A. Ramesh, Professor and Principal, Vishnu Institute of Pharmaceutical Education and Research, gave his valuable presentation covering the topics on Intellectual Property Rights is a term referring to creation of the intellect (the term used in studies of the human mind) for which a monopoly (from greek word monos means single poly to sell) is assigned to designated owners by law. Some common types of intellectual property rights (IPR) in some foreign countries intellectual property rights is referred to as industrial property, copyright, patent and trademarks, trade secrets all these cover music. literature and other artistic works, discoveries and inventions and words, phrases, symbols and designs. Intellectual Property Rights are themselves a form of property called intangible property. Although many of the legal principles governing IP and IPR have evolved over centuries, it was not until the 19th century that the term intellectual property began to be used and not until the late 20th century that it became commonplace in the majority of the world.

The Co-Convener Ms.K. Srilekha, Assistant Professor thanked the management of VIPT for giving support and encouraging the team to organize the seminar. Q & A Session was also held.

REPORT

Seminar was organized on *Declaration of Helsinki A Landmark in Research Ethics:*

A one day seminar was organized on Declaration of Helsinki A Landmark in Research Ethics on 11th March 2022 by VIPT, Duvvada. B.Pharmacy students have attended this seminar.

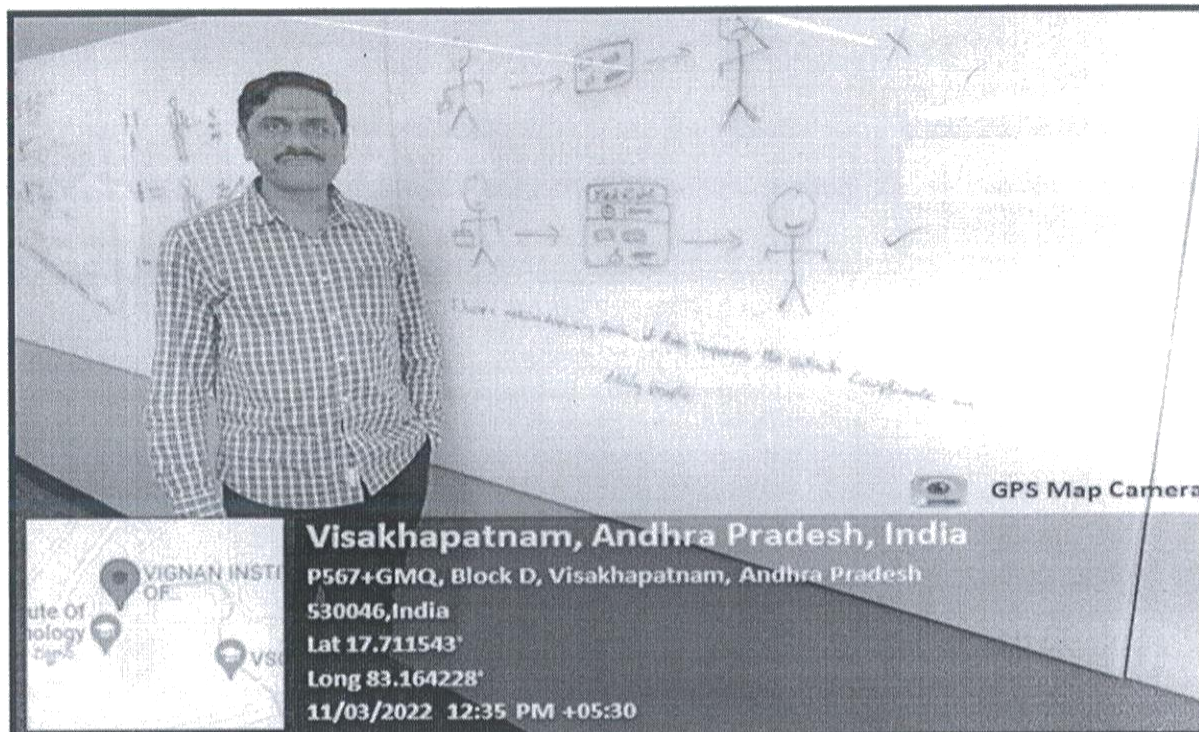

Dr.Y. Srinivasa Rao, Principal, VIPT delivered a welcome speech enlightened about the seminar and importance attached to the seminar.

After inauguration, the speaker Dr K. Eswar Kumar, Associate Professor, AU College of Pharmaceutical Sciences, gave his valuable presentation covering the topics on the Principles of Helsinki Declaration which is a statement of ethical principles for medical research involving human subjects, including research on identifiable human material and data has developed the Declaration of Helsinki by World Medical Association (WMA). The Declaration of Geneva of the WMA binds the physician with the words, "The health of my patient will be my first consideration," and the International Code of Medical Ethics declares that, "A physician shall act in the patient's best interest when providing medical care." It is the duty of the physician to promote and safeguard the health, well-being and rights of patients, including those who are involved in medical research. The physician's knowledge and conscience are dedicated to the fulfilment of this duty. Medical progress is based on research that ultimately must include studies involving human subjects. The primary purpose of medical research involving human subjects is to understand the causes, development and effects of diseases and improve preventive, diagnostic and therapeutic interventions (methods, procedures and treatments). Even the best proven interventions must be evaluated continually through research for their safety, effectiveness, efficiency, accessibility and quality. The convener Dr G. Vasantha, Associate professor thanked the management of VIPT for giving support and encouraging the team to organize the seminar. Lastly Q&A session also held.

ABOUT THE INSTITUTION

Vignan Institute of Pharmaceutical Technology (VIPT) is one of the constituent colleges of Vignan Institutions well known for quality education with Global standards and Indian values. VIPT was established in 2006 with a view to provide job oriented professional courses in Pharmacy, VIPT offers B.Pharmacy., M.Pharm., PharmD. Programs. The College is Affiliated to the JNTU Kakinada, approved by the All India Council for Technical Education (AICTE), Pharmacy Council of India (PCI), Govt. of Andhra Pradesh. The College is ISO 9001:2015 & ISO 14001:2015 & ISO 45001:2018 Certified for its safety and waste disposal methods employed. The infrastructure available makes the college a conducive academic learning that provides students with good quality education in a clean, comfortable environment. The college is presently one of the largest graduate, postgraduate and research institutions in Andhra Pradesh imparting quality Pharmaceutical Education.

RESOURCE PERSON

REPORT

Seminar was organized on *Qualitative and Quantitative Aspects of Study Designs in Research Methodology*:

A one day seminar was organized on Qualitative and quantitative aspects of study designs on 04th March 2022 by VIPT, Duvvada. B.Pharmacy students have attended this seminar.

Dr.Y. Srinivasa Rao, Principal, VIPT delivered a welcome speech enlightened about the seminar and importance attached to the seminar.

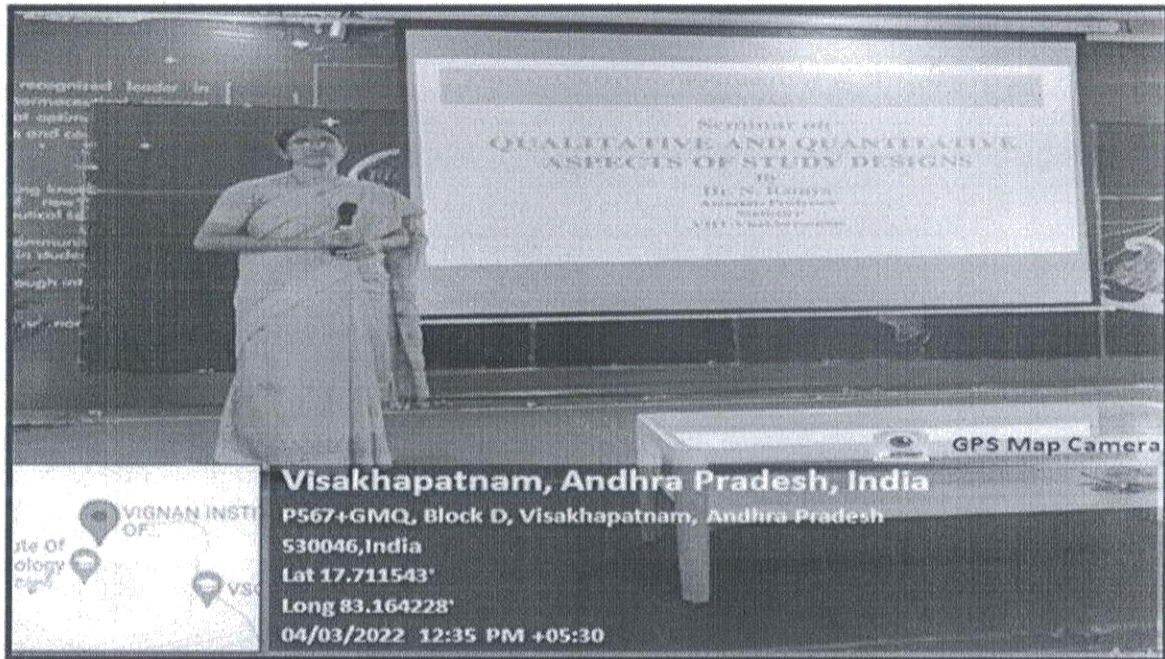

After inauguration, the speaker Dr N. Ramya, Associate Professor, Vignan Institute Of Information Technology gave her valuable presentation covering the topics on how Qualitative and Quantitative aspects of study design helps a researcher to pursue their journey into the unknown but with a systematic approach by their side. The way an engineer or architect frames a design for a structure; likewise the researcher picks the design from various approaches in order to check which type of research to be carried out. the research design is categorized into two different perspectives, i.e. Quantitative Research Design and Qualitative Research Design in Quantitative Research Design, a researcher examines the various variables while including numbers as well as statistics in a project to analyze its findings. The use of graphics, figures, pie charts is the main form of data collection measurement and meta-analysis (it is information about the data by the data). Qualitative research is quite contrary to quantitative research design. It is explanatory in nature and always seeks answers to "What's" and "How's". It mainly focuses on why a specific theory exists and what would be the respondent's answer to it. This allows a researcher to draw a conclusion with proper findings. Case studies are mainly used in Qualitative Research Design in order to understand various social complexities.

The convener Mrs. V. Jhansi Lakshmi, Assistant professor thanked the management of VIPT for giving support and encouraging the team to organize the seminar .Lastly Q&A session also held.

REPORT

Workshop was organized on *Laboratory Animals Used in Experimental Pharmacology*:

A one day workshop was organized on Laboratory Animals in Experimental Pharmacology on 19th February 2022 by VIPT, Duvvada. B.Pharmacy students have attended this seminar. Dr.Y. Srinivasa Rao, Principal, VIPT delivered a welcome speech enlightened about the seminar and importance attached to the seminar.

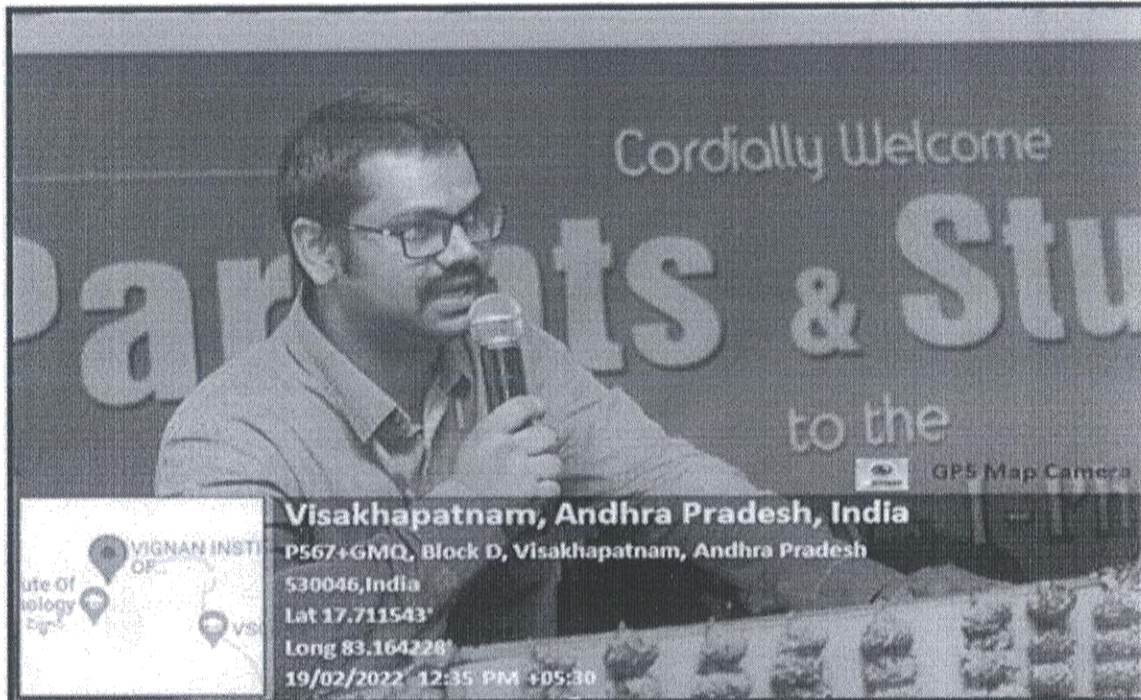

After inauguration, the speaker Dr. K. Raj Kiran, Professor & Principal, Sri Shivani College Of Pharmacy, Srikakulam gave his valuable presentation covering the topics on overview of different species of laboratory animals are used in experimental pharmacology to investigate dose –biological response relationship and pharmacokinetic of different test substances. The laboratory animals mostly used are, Mice, Rat, Guinea pig and Rabbits. The use of animals in research and education dates back to the period when humans started to look for ways to prevent and cure ailments. Most of present day's drug discoveries were possible because of the use of animals in research. The dilemma to continue animal experiments in education and research continues with varied and confusing guidelines. However, the animal use and their handling vary in each laboratory and educational institution. It has been reported that the animals are being subjected to painful procedures in education and training unnecessarily. The extensive use of animals in toxicity studies and testing dermatological preparations has raised concerns about the ways animals are sacrificed for these "irrelevant experiments". On the other side of the coin are scientists who advocate the relevant and judicious use of animals in research so that new discoveries can continue. He discussed the evolution of the use of animals in education and research and how these have been affected in recent times owing to concerns from animal lovers and government regulations. Lastly Q&A session also held.

The convener Dr K. Daniel Raju, Associate professor thanked the management of VIPT for giving support and encouraging the team to organize the seminar.

REPORT

Seminar was organized on *Social Media and Marketing: An Entrepreneurship Program:*

A one day seminar was organized on Social Media and Marketing On 05th February 2022 by VIPT, Duvvada. B.Pharmacy students attended this seminar.

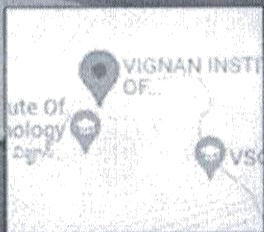

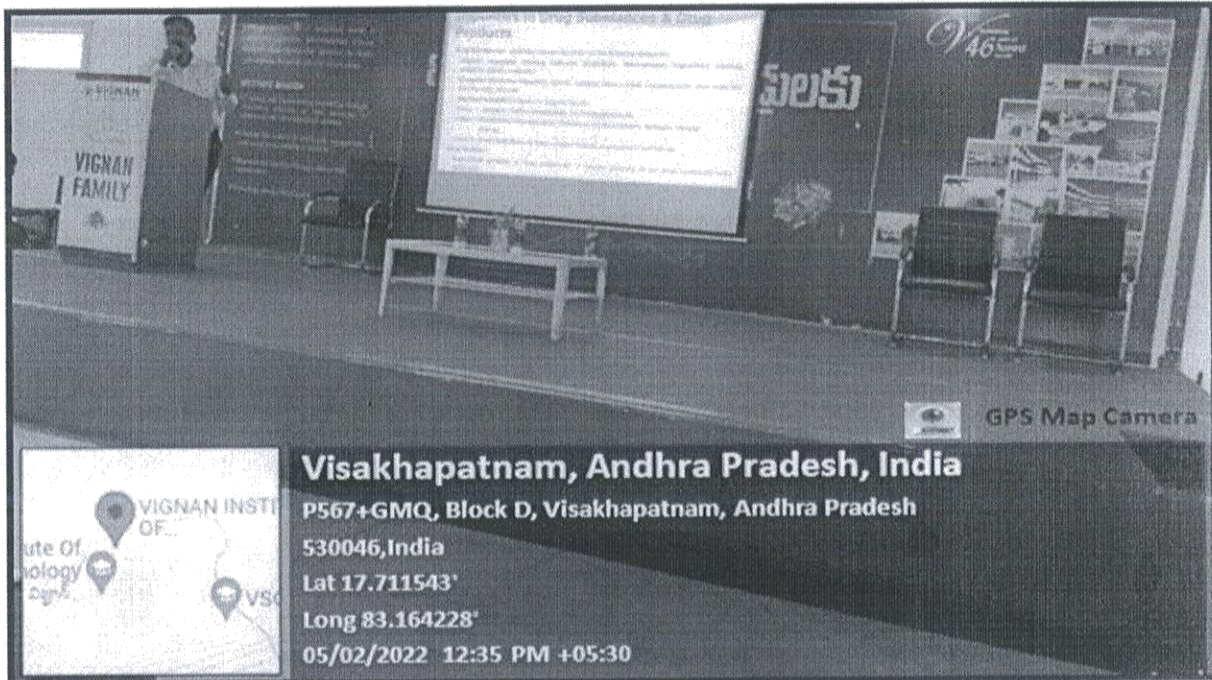

Dr.Y. Srinivasa Rao, Principal, VIPT delivered a welcome speech enlightened about the seminar and importance attached to the seminar.

After inauguration, the speaker Dr. CH. Hari Govinda Rao, Dean, IQAC, Vignan Institute of Information Technology gave his valuable presentation covering the topics on how Social media plays an effective role to reach more people across different platforms and how to attract a wider audience through social media by developing quality content. He discussed the use of organic social media marketing to get to know about followers and find better ways to promote our products and services. Social media marketing is necessary for any small business marketing strategy and requires a robust plan. He emphasized the need for social media advertising, which can also generate leads and sales while increasing brand awareness. Social media marketing is fairly easy to learn and doesn't require too much time or money. Considering the multiple social media platforms which are used by customers is an essential factor in Digital Marketing and implementing strategies to reach as many people through social media as possible. The convener Mr. K. VaraPrasada Rao, professor thanked the management of VIPT for giving support and encouraging the team to organize the seminar. Lastly Q&A session also held.

REPORT

Seminar was organized on *Business Etiquette*:

A one day seminar was organized on Business Etiquette on 28th January 2022 by VIPT, Duvvada. B.Pharmacy students attended this seminar.

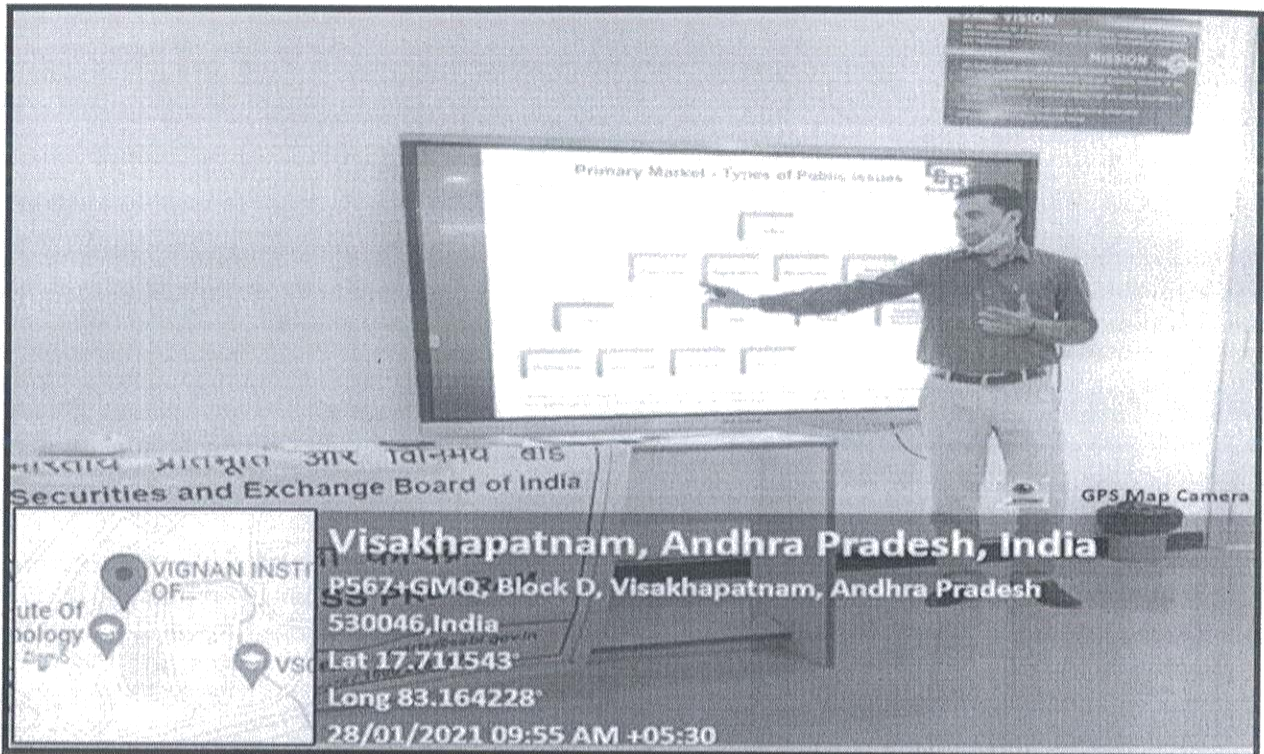

Dr.Y. Srinivasa Rao, Principal, VIPT delivered a welcome speech enlightened about the seminar and importance attached to the seminar.

After inauguration, the speaker Mr. Srinu Madem, Resource person, NISM gave his valuable presentation covering the topics on the importance of Business etiquette which will creates a professional, mutually respectful atmosphere and improves communication, which helps an office serve as a productive place and how People feel better about their jobs when they feel respected, and that translates into better customer relationships as well. In the business world, good business etiquette means that you act professionally and exercise proper manners when engaging with others in your profession. Good business etiquette is a valuable skill-set that will make you stand out from others, enhance your chances at success and help you land that dream job. Establishing good rapport is significant if you want to progress your professional future, take on new clients, impress your boss or close that final sale. The way to build positive relationships in the business world is by exercising good etiquette, specifically by exhibiting top-notch communication skills.

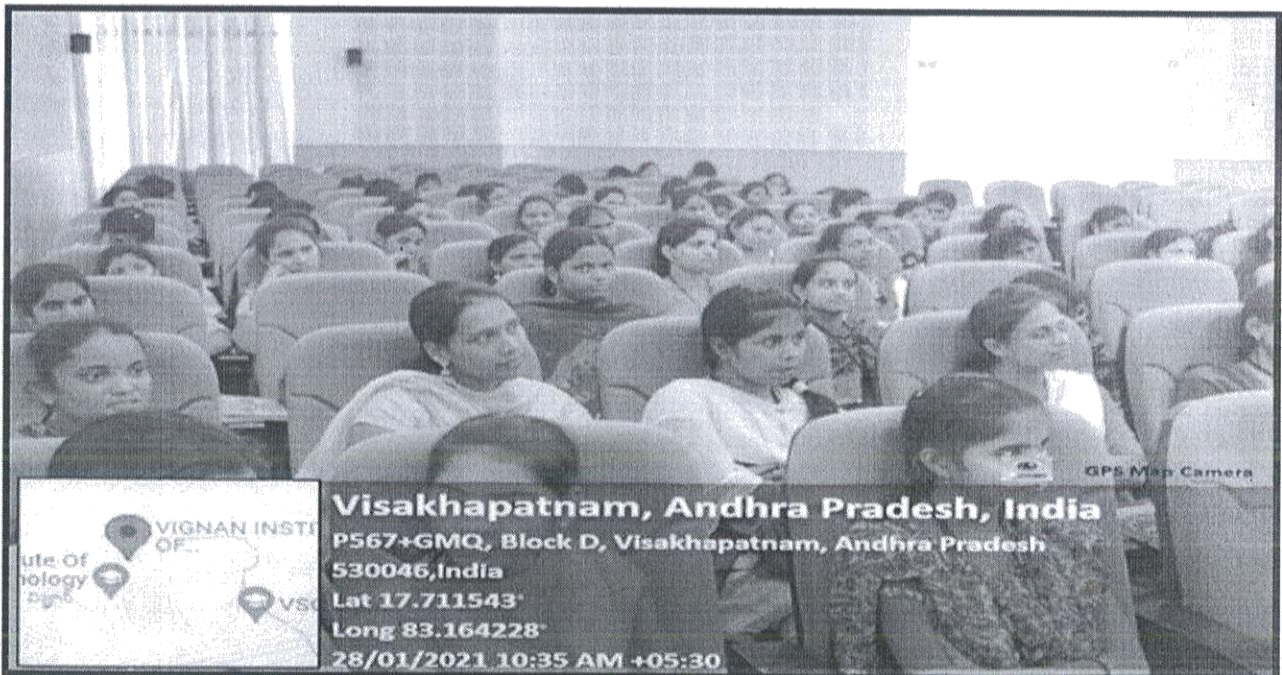

The convener Dr. D. Vasudha, Associate professor thanked the management of VIPT for giving support and encouraging the team to organize the seminar. Q & A Session was also held.

ABOUT THE INSTITUTION

Vignan Institute of Pharmaceutical Technology (VIPT) is one of the constituent colleges of Vignan Institutions well known for quality education with Global standards and Indian values. VIPT was established in 2006 with a view to provide job oriented professional courses in Pharmacy, VIPT offers B.Pharmacy, M.Pharm., PharmD. Programs. The College is Affiliated to the JNTU Kakinada, approved by the All India Council for Technical Education (AICTE), Pharmacy Council of India (PCI), Govt. of Andhra Pradesh. The College is ISO 9001:2015 & ISO 14001:2015 & ISO 45001:2018 Certified for its safety and waste disposal methods employed. The infrastructure available makes the college a conducive academic learning that provides students with good quality education in a clean, comfortable environment. The college is presently one of the largest graduate, postgraduate and research institutions in Andhra Pradesh imparting quality Pharmaceutical Education.

REPORT

Seminar was organized on *Innovation and Technological Entrepreneurship*

A one day seminar was organized on Innovation and Technological Entrepreneurship on 8th January 2022 by VIPT, Duvvada. B.Pharmacy and Pharm D students attended this seminar

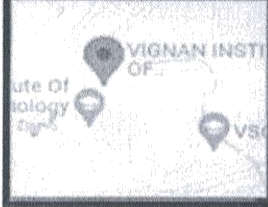

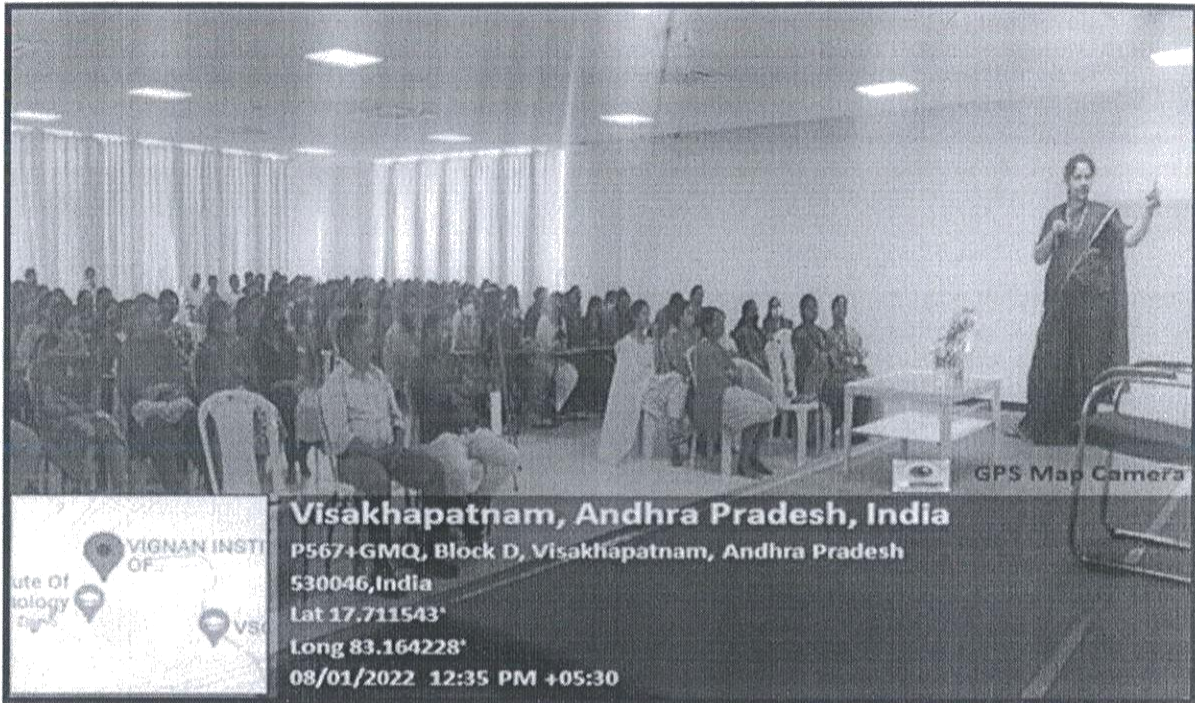

Dr. P.V.Kamala Kumari, Professor delivered a welcome speech enlightened about the seminar and importance attached to the seminar.

After inauguration, the speaker Mrs. Madhuri Kommoju.Sr. Market Analyst, Ashland. Inc gave her valuable presentation covering the topics on Innovation and advancement of technology, efforts taken by the entrepreneurs to enhance the skills within them, ways of innovation adopted by entrepreneurs and association between type of organization and improvement factors due to innovation various motivational factors affecting on the development of entrepreneurship. The entrepreneurship discipline investigates the reasons for creating, recognizing and exploiting opportunities. It is acknowledged that not all opportunities will necessarily be in the best interest of society and he has generally defined entrepreneurs as “people who are ingenious and creative in finding ways to increase their richness, power and prestige”. This allows the allocation of entrepreneurial talent in ways delaying economic growth. Application of innovation in the various areas of entrepreneurship, understand the awareness of innovation among entrepreneurs and impact of improvement factors on manufacturing and service industries also understand the problems faced by the entrepreneurs in adopting innovation if any were discussed. Q & A Session was also held.

The Co-convener Dr. K. Gana Manjusha, Associate Professor thanked the management of VIPT for giving support and encouraging the team to organize the seminar.

REPORT

Seminar was organized on **Role of Clinical Research in Drug Development Program:**

A one day seminar was organized on Role of Clinical Research in Drug Development Program on 30th December 2021 by VIPT, Duvvada. B.Pharmacy and Pharm D students attended this seminar.

Dr. D. Vasudha, Associate Professor, VIPT delivered a welcome speech enlightened about the seminar and importance attached to the seminar.

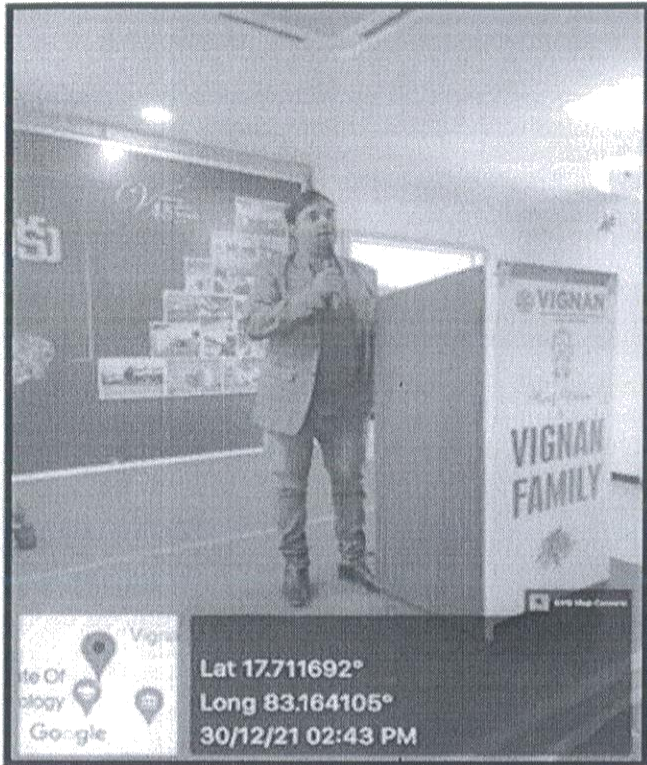

After inauguration, the speaker Dr. Suresh Karri, Head/clinical development, Bio plus life sciences, Bengaluru gave his valuable presentation covering the topics on Clinical trials that generate the evidence contained within treatment practice guidelines, which have a broader reach across populations of patients. Clinical trials conducted after the drug's approval, along with spontaneous safety reporting and active post marketing surveillance, provide additional information that may lead to changes to the drug's label over time as the drug's use in clinical practice increases. Drug development is the process of bringing a new pharmaceutical drug to the market once a lead compound has been identified through the process of drug discovery. It includes pre-clinical research on microorganisms and animals, filing for regulatory status, such as via the United States Food and Drug Administration for an investigational new drug to initiate clinical trials on humans, and may include the step of obtaining regulatory approval with a new drug application to market the drug. Q & A Session was also held.

The Co-convener Dr. K. Gana Manjusha, Associate Professor thanked the management of VIPT for giving support and encouraging the team to organize the seminar.

REPORT

Workshop was organized on *Entrepreneurship Awareness*:

A one day Workshop was organized on Entrepreneurship Awareness on 15th December 2021 by VIPT, Duvvada. B.pharmacy and Pharm D students attended this workshop.

Dr. S. Satya Lakshmi, Professor delivered a welcome speech enlightened about the seminar and importance attached to the seminar.

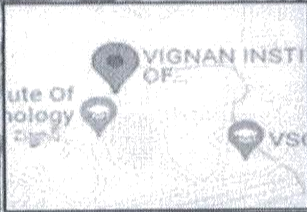

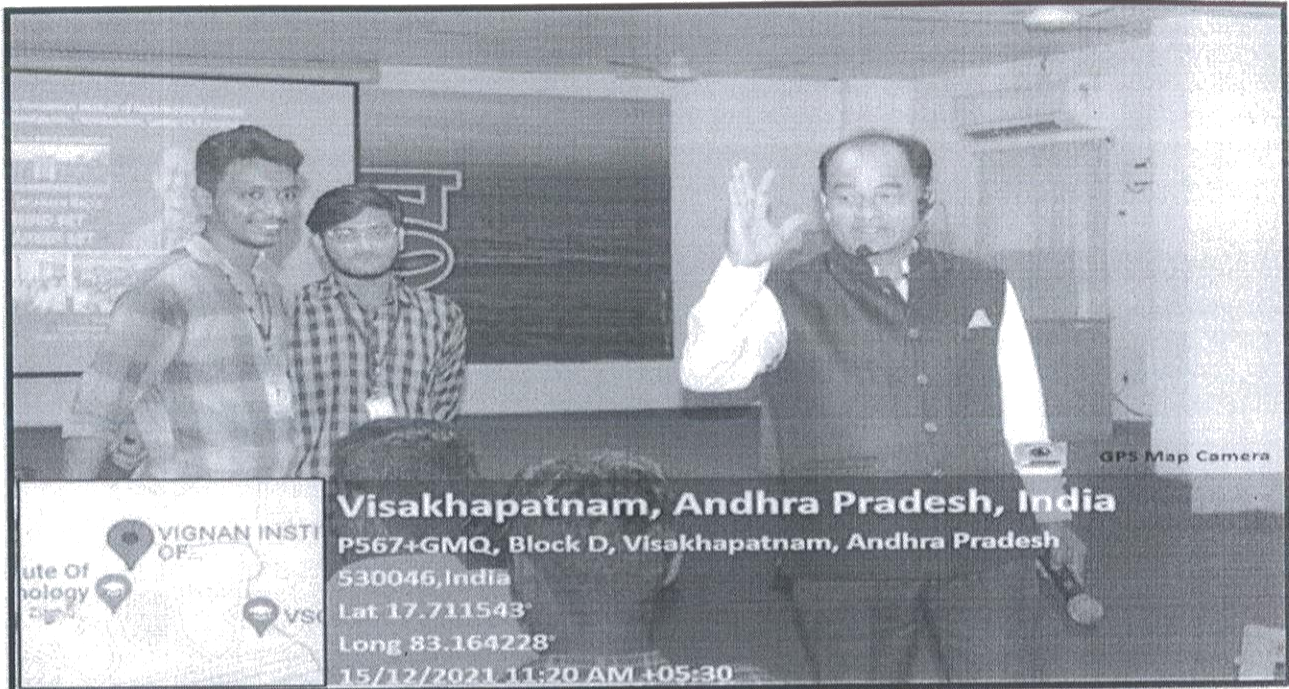

Post inauguration, the speaker Dr. Jaganath Rao Personality Development Head, Dr. Jaganath skill and will development LLP Bangalore gave his valuable presentation covering the topics on opportunities with entrepreneurship in education, such as its capacity to trigger deep learning and instill engagement, joy, motivation, confidence and feelings of relevancy among students, but also its stated and to some extent evidenced effects on job creation, economic success, renewal and innovation for individuals, organizations and society at large. Theoretical foundations, related research and practical implications of this idea have been put forward, along with contrasting of entrepreneurial education defined this way to other pedagogical approaches, debates and frameworks. Some important areas for future improvement have been explained such as a need to increase awareness of entrepreneurial education as a pedagogical approach relevant to all students and on all levels of education, a need for more and closer collaboration between researchers and practitioners in the two domains of education and entrepreneurship, a need for closing the gap between stated and desired effects of entrepreneurial education and a need for increased understanding of when, how and why entrepreneurial education can develop entrepreneurial competencies, especially on primary and secondary levels of education and with an embedded approach were discussed. Q & A Session was also held.

The Co-convenor Dr. D. Vasudha, Associate Professor thanked the management of VIPT for giving support and encouraging the team to organize the seminar.

REPORT

Seminar was organized on *Role of Laboratory Animals in Corona Vaccine Development*

A one day seminar was organized on Role of Laboratory Animals in Corona Vaccine Development on 11th December 2021 by VIPT, Duvvada. B.pharmacy students attended this seminar.

Dr. P.V.Kamala Kumari, Professor, VIPT delivered a welcome speech enlightened about the seminar and importance attached to the seminar.

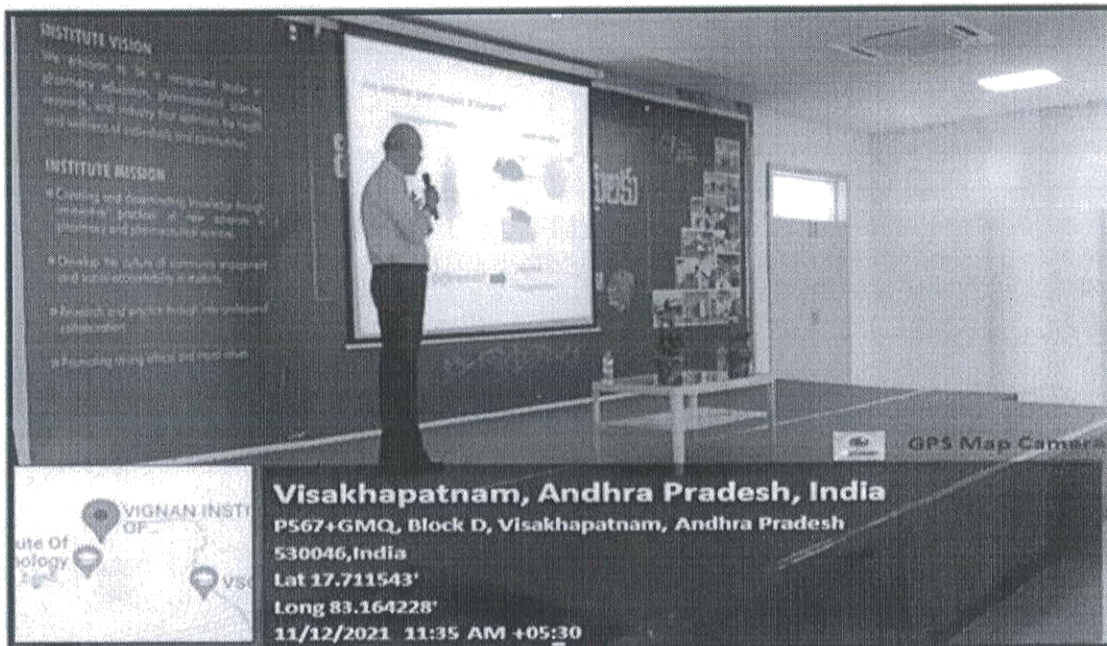

After inauguration, the speaker Dr. N. Harishankar, Scientist E, National Institute of Nutrition (NIN), Hyderabad gave his valuable presentation covering the topics on Various laboratory animals in experimental pharmacology, different species of laboratory animals are used in experimental pharmacology to investigate dose –biological response relationship and pharmacokinetic of different test substances. The laboratory animals mostly used are, Mice, Rat, Guinea pig and Rabbits. The use of animals in research and education dates back to the period when humans started to look for ways to prevent and cure ailments. Most of present day's drug discoveries were possible because of the use of animals in research. The dilemma to continue animal experiments in education and research continues with varied and confusing guidelines. However, the animal use and their handling vary in each laboratory and educational institution. It has been reported that the animals are being subjected to painful procedures in education and training unnecessarily. The extensive use of animals in toxicity studies and testing dermatological preparations has raised concerns about the ways animals are sacrificed for these “irrelevant experiments”. On the other side of the coin are scientists who advocate the relevant and judicious use of animals in research so that new discoveries can continue. A number of computer simulation and other models have been recommended for use as alternatives to use of animals for pharmacology education has been discussed.

The Co-convener Ms. K. Srilekhya, Assistant Professor thanked the management of VIPT for giving support and encouraging the team to organize the seminar. Q & A Session was also held.

ABOUT THE INSTITUTION

Vignan Institute of Pharmaceutical Technology (VIPT) is one of the constituent colleges of Vignan Institutions well known for quality education with Global standards and Indian values. VIPT was established in 2006 with a view to provide job oriented professional courses in Pharmacy, VIPT offers B.Pharmacy., M.Pharm., PharmD. Programs. The College is Affiliated to the JNTU Kakinada, approved by the All India Council for Technical Education (AICTE), Pharmacy Council of India (PCI), Govt. of Andhra Pradesh. The College is ISO 9001:2015 & ISO 14001:2015 & ISO 45001:2018 Certified for its safety and waste disposal methods employed. The infrastructure available makes the college a conducive academic learning that provides students with good quality education in a clean, comfortable environment. The college is presently one of the largest graduate, postgraduate and research institutions in Andhra Pradesh imparting quality Pharmaceutical Education.

REPORT

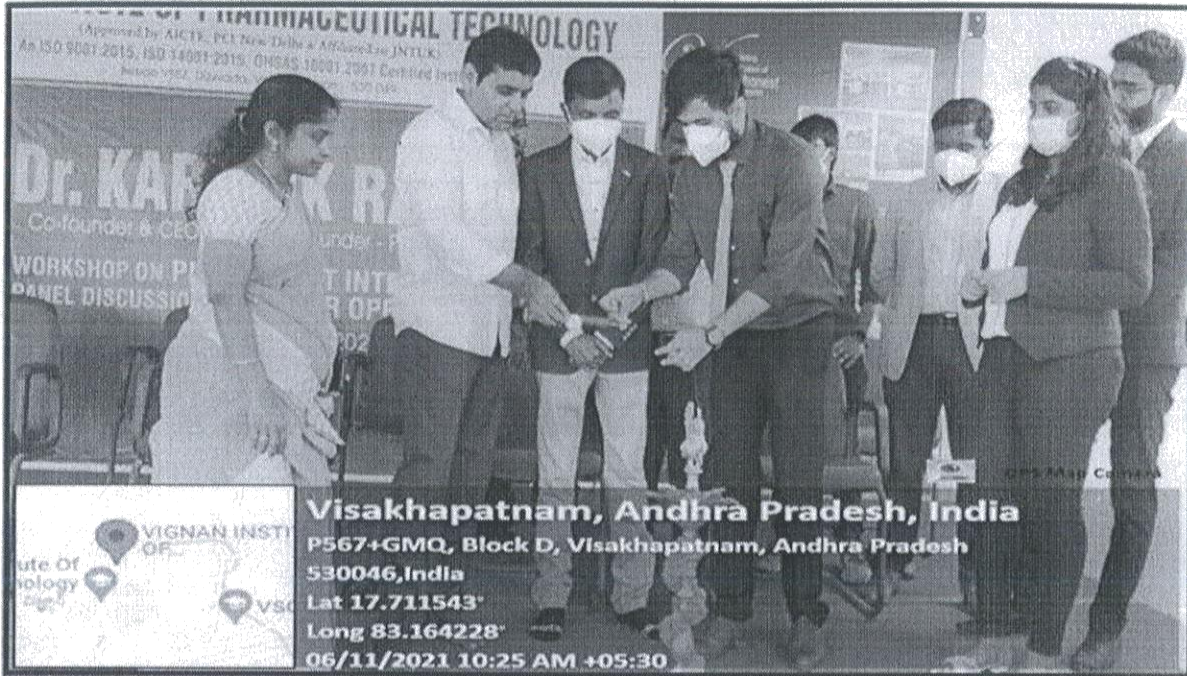

Seminar was organized on **Pharmaceutical Marketing and Entrepreneurship**

A one day seminar was organized on Pharmaceutical Marketing and Entrepreneurship on 6th November 2021 by VIPT, Duvvada. Pharm D and M. Pharmacy students attended this seminar.

Dr. M.Saritha, Professor, VIPT delivered a welcome speech enlightened about the seminar and importance attached to the seminar. After inauguration, the speakers Dr. Karthik Rakam, Co founder & CEO, Avenida. Dr. Satya Vardhan, pharmcogenomic consultant, mapmygenome, Dr. PSK Srikanth, Clinial data analyst, COVANCE, Dr. GPS Chaitanya, Site management coordinator, galaxy CR services, AMC, Dr. Sheethal Nandi, Clinicla data analyst II, Parexel, Dr. Hari Kiran, Jr.clinical research associate, Novo Nordisk. Dr. M. Ravikiran Reddy, Bussiness system analyst G1, IQVIA gave their valuable presentation covering the topics on career in pharmacy. It is one of the best careers across the globe. Today Pharmacy is a part of healthcare services, and today this discipline has made enormous progress in community, production, and research. Dr. B. Suresh, the President of the Pharmacy Council of India says 'Contrary to popular perception, the increasing number of hospitals, nursing homes, and pharmaceutical companies all over is a clear indication of the growing scope in pharmacy thus offering excellent and rewarding career opportunities both by way of jobs as well as in terms of starting your own business. The pharmacist has various job opportunities in the pharmaceutical industry, universities, teaching, hospitals, research and research institutes, government departments, etc. In a clinical research organization (CRO) pharmacists are employed as Clinical Research associates, Regulatory Affairs associates, Clinical Data Managers, Clinical Development, and Project Managers. Organizational management offers pharmacists on national and state associations and on boards of pharmacy. There is a career for pharmacists in the insurance sector too. They can work in managerial positions with health and welfare agencies. There are lots of higher education and research opportunities in developed countries. Pharmacists have placement opportunities in education, sales, and manufacturing and in hospitals as councilors and as clinical pharmacist. A pharmacist can work with physicians as medical transcript or to maintain the patient treatment history, the drug which patients are allergic etc. The convener Dr. K. Gana Manjusha, Associate Professor thanked the management of VIPT for giving support and encouraging the team to organize the seminar. Q & A Session was also held.

REPORT

Seminar was organized on Online Pharmacies: Pros and Cons:

A one day seminar was organized online pharmacies: pros and cons on 23.09.2021 by VIPT, DUVVADA. III B.pharmacy and IV B.pharmacy students attended this seminar.

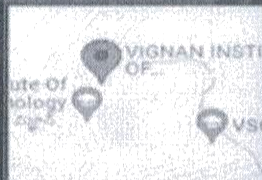

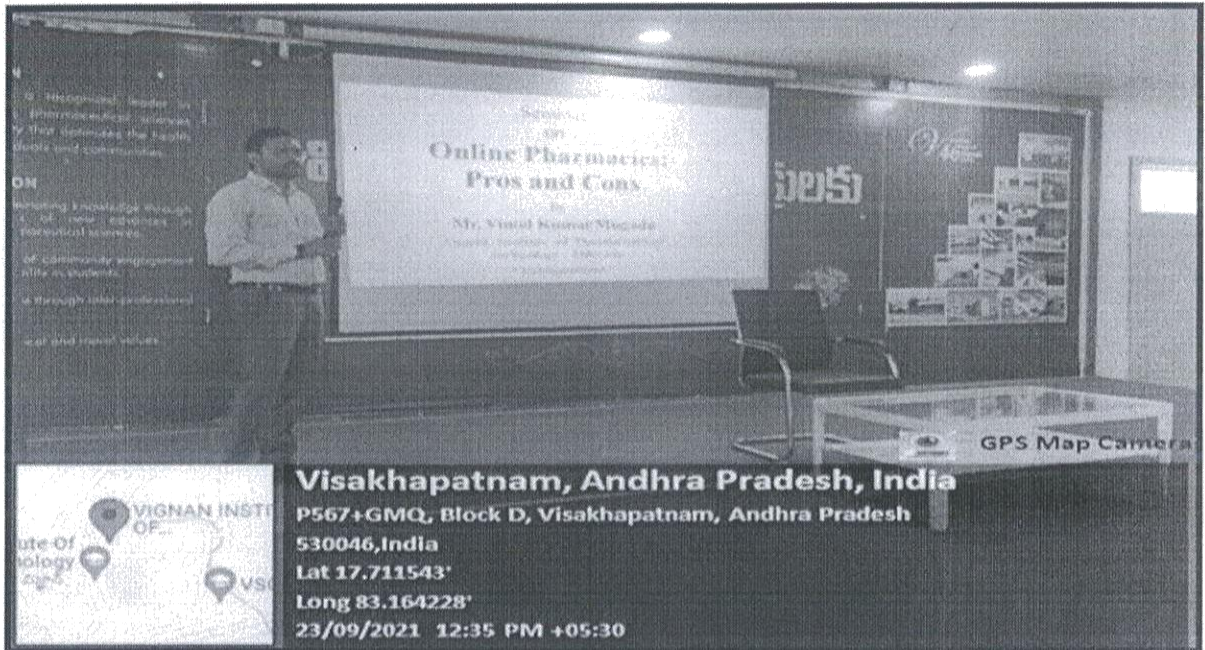

The convener Dr. M.Saritha, professor VIPT delivered a welcome speech enlightened about the seminar and importance attached to the seminar. After inauguration, the speaker Mr. Vinod Kumar Mugada, VIPT gave his valuable presentation covering the topics on online pharmacies: pros and cons is a term referring to e-pharmacy is a business model that deals with the preparation and sale of prescription and non-prescription drugs as in traditional pharmacies. However, online pharmacies take orders online and send the drugs to their destination by post. pros of online pharmacies are convenience, access to medical information, cost efficacy, wide range of availability, ability to avail medicines in a same day. the disadvantages include lack of physical interaction between pharmacists and patient and medication misuse by patients as well as illegal websites. Measures to overcome problems were explained.

The co-convener Dr. K. Gana manjusha, associate professor thanked the management of VIPT for giving support and encouraging the team to organize the seminar. q & a session was also held.

ABOUT THE INSTITUTION

Vignan Institute of Pharmaceutical Technology (VIPT) is one of the constituent colleges of Vignan Institutions well known for quality education with Global standards and Indian values. VIPT was established in 2006 with a view to provide job oriented professional courses in Pharmacy, VIPT offers B.Pharmacy, M.Pharm., PharmD. Programs. The College is Affiliated to the JNTU Kakinada, approved by the All India Council for Technical Education (AICTE), Pharmacy Council of India (PCI), Govt. of Andhra Pradesh. The College is ISO 9001:2015 & ISO 14001:2015 & ISO 45001:2018 Certified for its safety and waste disposal methods employed. The infrastructure available makes the college a conducive academic learning that provides students with good quality education in a clean, comfortable environment. The college is presently one of the largest graduate, postgraduate and research institutions in Andhra Pradesh imparting quality Pharmaceutical Education.

RESOURCE PERSON

Dr. Santosh Kumar Ranajit

Associate Professor
School of Pharmacy and Life Sciences
Centurion Univeristy. Orissa

PROFILE: Awardee of UGC-JRF, have done regular Ph. D in Andhra University under the guidance of Dr. K. Eswar Kumar, Visakhapatnam, Andhra Pradesh. I have 12 years of experiences in both teaching and research. I have obtained my master degree from KMIPS, Rourkela and bachelor degree from college of pharmaceutical sciences, berhampur. I have obtained my CHSE & Matriculation from Saraswati vidya mandir, Nalconagar, Angul, odisha. I like to attend Quality Improvement Programme and Faculty Development Programme. Research expertise in Diabetes, Hepatoprotective, and Ulcer, Wound healing. Teaching experience in Human anatomy and physiology, Pathophysiology, Pharmacology, Toxicology and diabetes.

REPORT

Two days workshop organized on **Pharmacological Data Interpretation using SPSS in Research:**

A Two days Workshop on Pharmacological Data Interpretation using SPSS in Research was organized on 17.09.2021 to 18.09.2021 by VIPT, Duvvada. B.pharmacy and V Pharm.D students attended this seminar.

The Convener Dr. G. Vasantha, Associate Professor, VIPT delivered a welcome speech enlightened about the seminar and importance attached to the seminar.

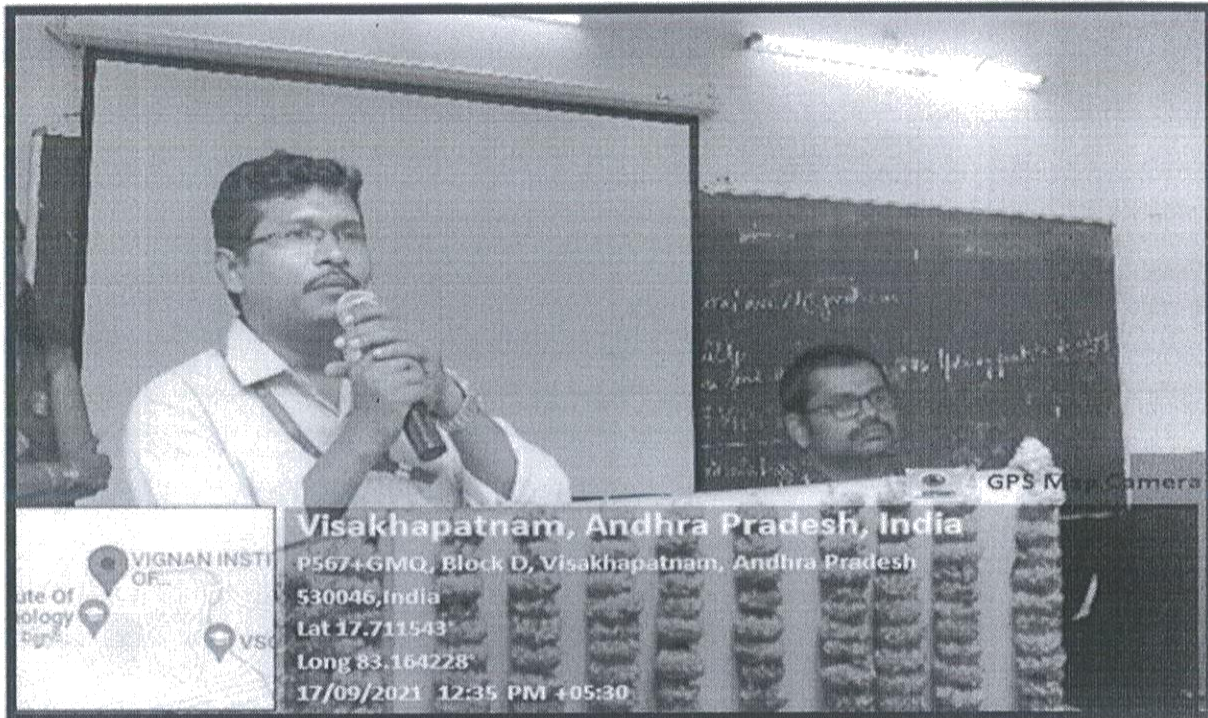

After inauguration, the speaker Dr. Santosh Kumar Ranajit, Associate Professor, School of Pharmacy and Life Sciences, Centurion University, Orissa gave his valuable presentation covering the topics on Pharmacological Data Interpretation using SPSS. The contents are set out in what seems a logical order to me however if you are in a rush, or you don't conform to a old fashioned linear learning model then feel free to jump in at the middle and work your way out. Most researchers will be working to a protocol that they set out way before gathering their data, if this is the case then theoretically all you need to do is flip to the pages with the procedures you need on and apply them. The type of data you gather is very important in letting you know what a sensible method of analysis would be and of course if you don't use an appropriate method of analysis your conclusions are unlikely to be valid. Typically only data from the last two types might be suitable for parametric methods, although as we'll see later it isn't always a completely straight forward decision and when documenting research it is reasonable to justify the choice of analysis to prevent the reader believing that the analysis that best supported the hypothesis was chosen rather than the one most appropriate to the data. Q & A session and student interaction was also held.

The Co-Convener Ms. R. Syamala, Assistant Professor, Assistant Professor thanked the management of VIPT for giving support and encouraging the team to organize the seminar.

REPORT

Seminar was organized on **Colloquium on Intellectual Property Rights:**

A One day Colloquium on Intellectual Property Rights organized on 4.09.2021 by VIPT, Duvvada. B.pharmacy and Pharm.D students attended this seminar.

The Convener Dr. M. Trinadha Rao Associate Professor, VIPT delivered a welcome speech enlightened about the seminar and importance attached to the seminar.

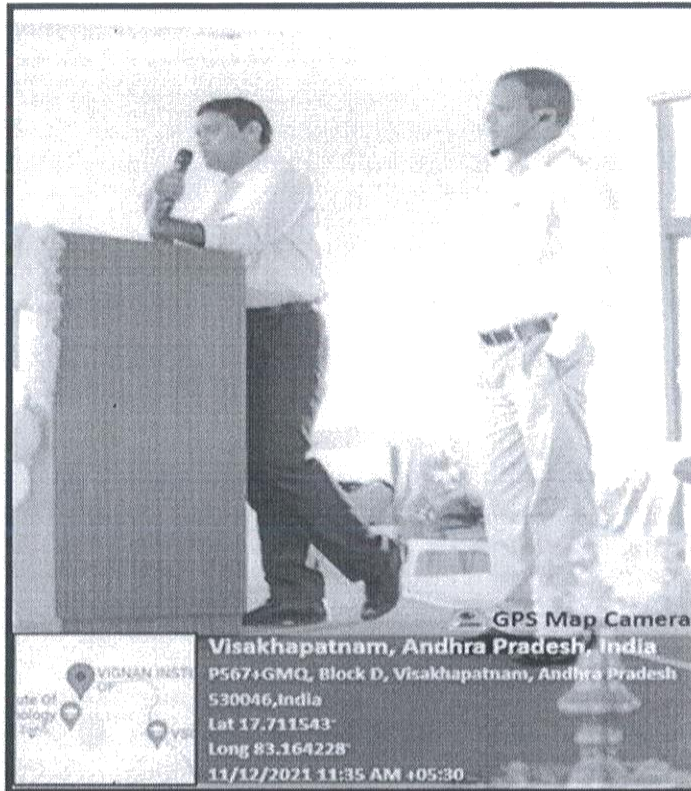

After inauguration, the speaker Demudu Babu Animireddy gave his valuable presentation covering the topics on Intellectual Property Rights is a term referring to creation of the intellect (the term used in studies of the human mind) for which a monopoly (from greek word monos means single poly to sell) is assigned to designated owners by law. Some common types of intellectual property rights (IPR) in some foreign countries intellectual property rights is referred to as industrial property, copyright, patent and trademarks, trade secrets all these cover music, literature and other artistic works, discoveries and inventions and words, phrases, symbols and designs. Intellectual Property Rights are themselves a form of property called intangible property. Although many of the legal principles governing IP and IPR have evolved over centuries, it was not until the 19th century that the term intellectual property began to be used and not until the late 20th century that it became commonplace in the majority of the world.

The Co-Convener Mrs. A.Swathi Annapurna,, Assistant Professor thanked the management of VIPT for giving support and encouraging the team to organize the seminar. Q & A Session was also held.

ABOUT THE INSTITUTION

Vignan Institute of Pharmaceutical Technology (VIPT) is one of the constituent colleges of Vignan Institutions well known for quality education with Global standards and Indian values. VIPT was established in 2006 with a view to provide job oriented professional courses in Pharmacy, VIPT offers B.Pharmacy., M.Pharm., PharmD. Programs. The College is Affiliated to the JNTU Kakinada, approved by the All India Council for Technical Education (AICTE), Pharmacy Council of India (PCI), Govt. of Andhra Pradesh. The College is ISO 9001:2015 & ISO 14001:2015 & ISO 45001:2018 Certified for its safety and waste disposal methods employed. The infrastructure available makes the college a conducive academic learning that provides students with good quality education in a clean, comfortable environment. The college is presently one of the largest graduate, postgraduate and research institutions in Andhra Pradesh imparting quality Pharmaceutical Education.

REPORT

Symposium on Enforcement of Intellectual Property Rights (IPRs)

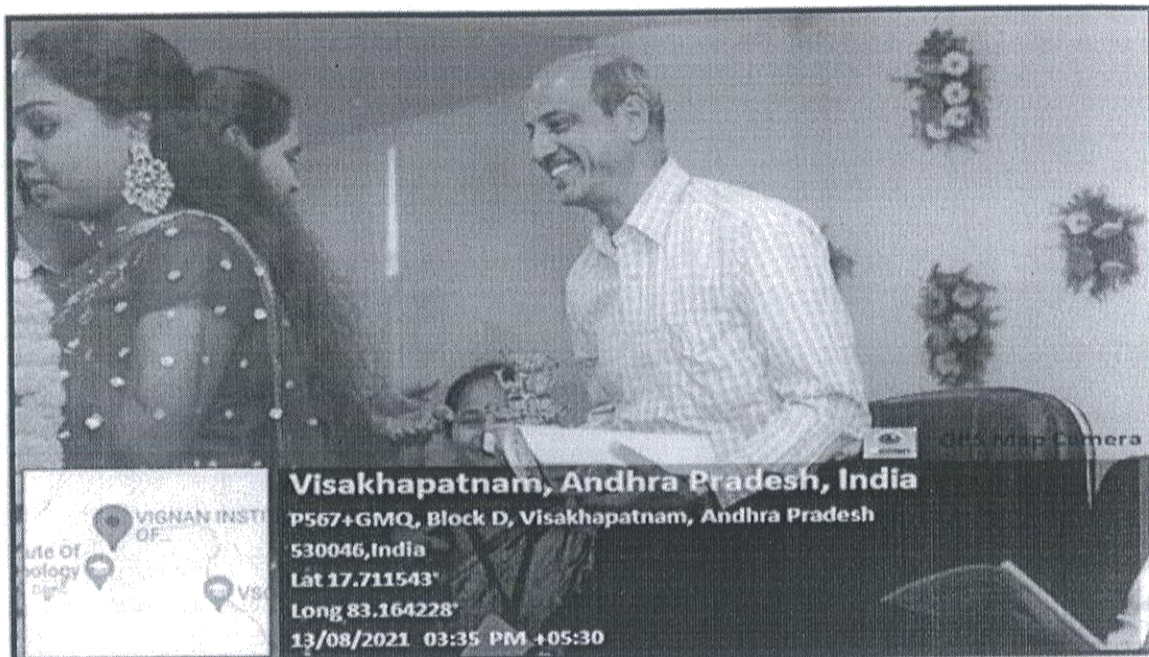

A One day Symposium was organized on Enforcement of Intellectual Property Rights (IPRs) on 13.08.2021 by VIPT, Duvvada. B.Pharmacy and Pharm.D students attended this seminar. The Convener Dr.M.Trinadha Rao, VIPT delivered a welcome speech enlightened about the seminar and importance attached to the seminar. After inauguration, the speaker Prof. K.V.Ramana murthy, AU College of pharmaceutical sciences, Visakhapatnam. gave his valuable presentation covering the topics on Symposium on Enforcement of Intellectual Property Rights is a term referring While IPR laws provide for civil and criminal action by right holder in cases of infringement of his/her IPR, the Customs authority powers to take action against infringing goods are limited to action against infringing goods at the time of import and export and that to subject to procedure laid in IPR Enforcement. Civil and administrative procedures and remedies, Provisional measures. Border measures, Criminal procedures, WTO activities and Cooperation were explained. If the intellectual property system is to make its intended beneficial contribution to economic and social welfare, it is vital that the tools be available to ensure that IP rights are respected in an effective, timely and accessible manner. alongside the legitimate interests of others concerned. The Agreement on Trade-related Aspects of Intellectual Property Rights (TRIPS) broke new ground in multilateral law by setting out general principles for the enforcement of IP rights. It requires WTO members to make available effective, balanced and fair procedures that provide for necessary remedies while guarding against their misuse and the creation of obstacles to legitimate trade. Q & A Session was also held.

The Co-Convener Ms. N. Madhuri, Assistant Professor, thanked the management of VIPT for giving support and encouraging the team to organize the seminar.

ABOUT THE INSTITUTION

Vignan Institute of Pharmaceutical Technology (VIPT) is one of the constituent colleges of Vignan Institutions well known for quality education with Global standards and Indian values. VIPT was established in 2006 with a view to provide job oriented professional courses in Pharmacy, VIPT offers B.Pharmacy, M.Pharm., PharmD. Programs. The College is Affiliated to the JNTU Kakinada, approved by the All India Council for Technical Education (AICTE), Pharmacy Council of India (PCI), Govt. of Andhra Pradesh. The College is ISO 9001:2015 & ISO 14001:2015 & ISO 45001:2018 Certified for its safety and waste disposal methods employed. The infrastructure available makes the college a conducive academic learning that provides students with good quality education in a clean, comfortable environment. The college is presently one of the largest graduate, postgraduate and research institutions in Andhra Pradesh imparting quality Pharmaceutical Education.

REPORT

Workshop was organized on *Statistical Interpretation of Pharmaceutical Data*:

A Two days workshop on *Statistical Interpretation of Pharmaceutical Data* was organized on 23-11-2021 & 24-11-2021 by VIPT, Duvvada. Final year B.Pharmacy students attended this seminar.

The Convener Mr. Vinod Kumar Mugada, Assistant Professor, VIPT delivered a welcome speech enlightened about the seminar and importance attached to the seminar.

After inauguration, the speaker Prof. J.Vijaya Ratna, Andhra university gave her valuable presentation covering the topics on Statistical Interpretation of Pharmaceutical Data is a term referring to creation of the intellect (the term used in studies of the human mind) for which a monopoly (from greek word monos means single poly to sell) is assigned to designated owners by law. Statistics provide methods and tools for making decisions in uncertain or variable conditions, such as those produced from data collected during research. As study designs increase in complexity, interpreting the results using statistics becomes more difficult. Planning research involves selecting an appropriate and important research question with measurable outcomes. Next, a single hypothesis or multiple hypotheses should be developed. These hypotheses will be critical to interpreting the results of the research. Thirdly, the researcher needs to identify the types of variables being studied, because these will determine the most appropriate statistical test. method of reporting the data or both. These three steps should be accomplished before commencing the study. The data must be collected using a good sampling plan; recorded accurately; entered correctly into a computer program (chosen based on the type of variables studied); and analyzed by appropriate software. However, the most important step is then making a decision based on the computer output. Here, the hypotheses will assist in interpreting the result for the study.

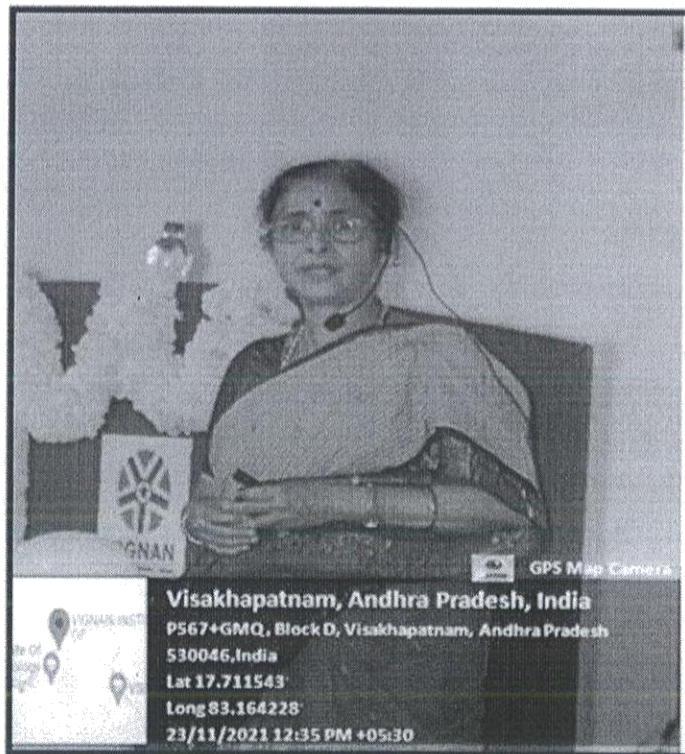

The Co-Convener Mrs. Asma Fathima, Assistant Professor, thanked the management of VIPT for giving support and encouraging the team to organize the seminar. Q & A Session was also held.

ABOUT THE INSTITUTION

Vignan Institute of Pharmaceutical Technology (VIPT) is one of the constituent colleges of Vignan Institutions well known for quality education with Global standards and Indian values. VIPT was established in 2006 with a view to provide job oriented professional courses in Pharmacy, VIPT offers B.Pharmacy., M.Pharm., PharmD. Programs. The College is Affiliated to the JNTU Kakinada, approved by the All India Council for Technical Education (AICTE), Pharmacy Council of India (PCI), Govt. of Andhra Pradesh. The College is ISO 9001:2015 & ISO 14001:2015 & ISO 45001:2018 Certified for its safety and waste disposal methods employed. The infrastructure available makes the college a conducive academic learning that provides students with good quality education in a clean, comfortable environment. The college is presently one of the largest graduate, postgraduate and research institutions in Andhra Pradesh imparting quality Pharmaceutical Education.

RESOURCE PERSON

Prof. P.V. Kamala Kumari,

REPORT

Workshop was organized on *Optimization Techniques Based on Factorial Experiments in Research:*

A Workshop was organized on *Optimization Techniques Based on Factorial Experiments in Research* was organized on 27-11-2021 by VIPT, Duvvada. Final year B.Pharmacy and Pharm D students attended this seminar.

The Convener Mr. P.N.Mallikarjun, Associate Professor, VIPT delivered a welcome speech enlightened about the seminar and importance attached to the seminar.

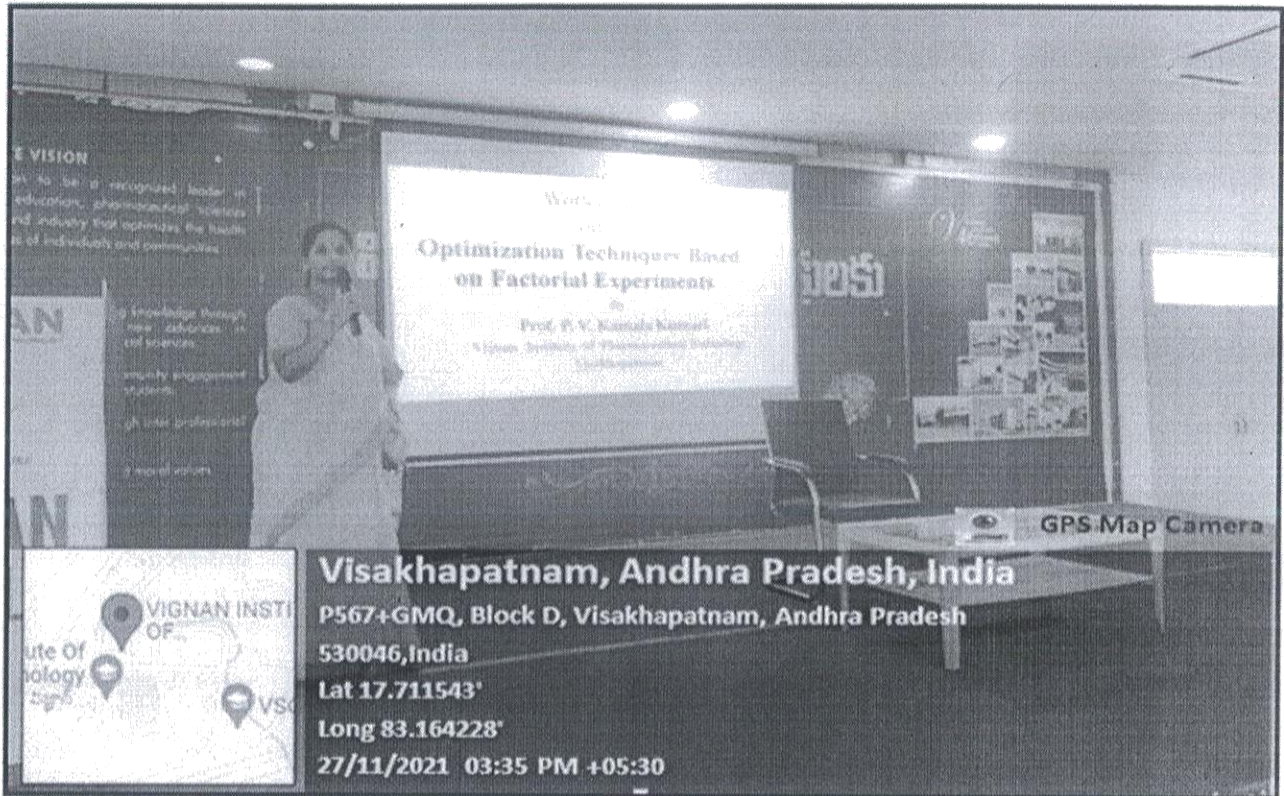

After inauguration, the speaker Prof. P.V. Kamala Kumari, Vignan Institute of Pharmaceutical Technology, Duvvada gave her valuable presentation covering the topics on Optimization Techniques Based on Factorial Experiments is a term referring factorial design is employed to achieve the best overall optimization of a process [35], [36]. The design determines the effect of each factor on the response as well as how the effect of each factor varies with the change in level of the other factors. A factorial design allows the effect of several factors and even interactions between them to be determined with the same number of trials as are necessary to determine any one of the effects by itself with the same degree. These designs are very frequently used response surface designs. Experimental optimization is an iterative process: that is, experiments conducted in one set of experiments result in fitted models that indicate where to search for improved operating conditions in the next set of experiments.

The Co-Convener Dr. M. Trinadha Rao, Associate Professor, thanked the management of VIPT for giving support and encouraging the team to organize the seminar. Q & A Session was also held.

REPORT

Seminar was organized on *CPCSEA Guidelines for Laboratory Animal Facilities in Research:*

A one day seminar was organized on *CPCSEA Guidelines for Laboratory Animal Facilities in Research* on 18-11-2021 by VIPT, Duvvada. B.Pharmacy students have attended this seminar.

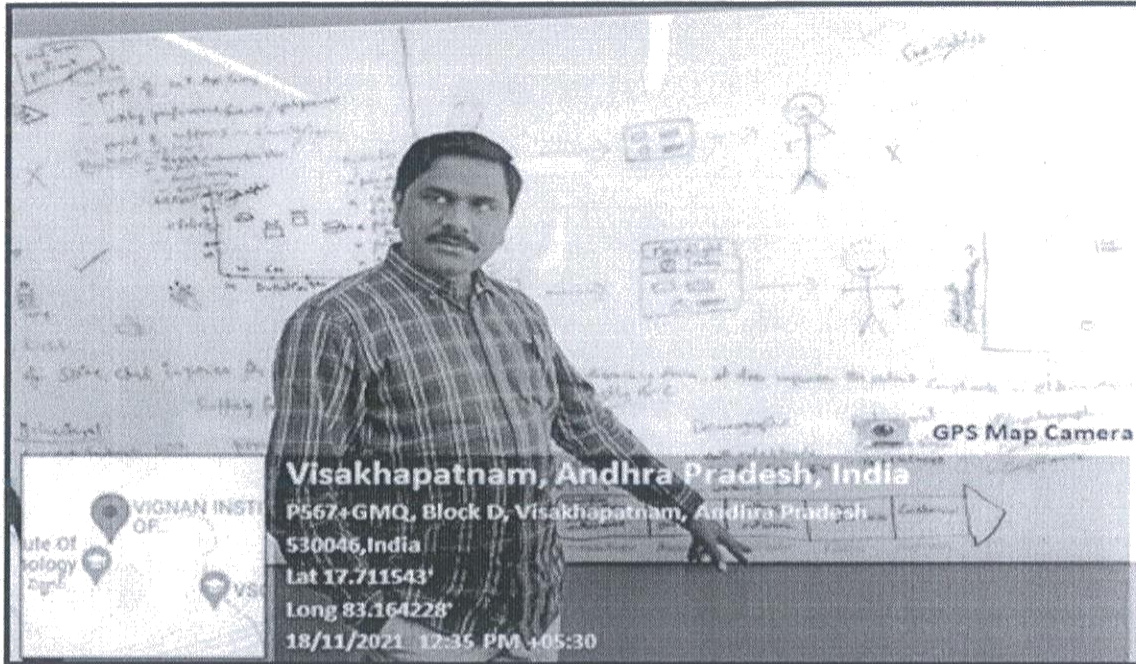

Dr. Y. Srinivasa Rao, Principal, VIPT delivered a welcome speech enlightened about the seminar and importance attached to the seminar. After inauguration, the speaker Dr. K.Eswar Kumar, Associate Professor, AU college of Pharmaceutical Sciences, gave his valuable presentation covering the topics on overview of different species of laboratory animals are used in experimental pharmacology to investigate dose and CPCSEA guidelines for laboratory animal facility focused on Provide a comfortable environment, Provide an escape proof enclosure that confines animal safety, Provide easy access to food and water; Provide adequate ventilation, Meet the biological needs of the animals, e.g., maintenance of body temperature, urination, defecation, and reproduction; Keep the animals dry . Indian law on animal experimentation and the success story of the CPCSEA in India in inculcating the credo of 4Rs -- Replacement, Reduction, Refinement, and Rehabilitation of animals used in experimentation in education and training unnecessarily. The objective of CPCSEA is to ensure that animals are not subjected to unnecessary pain or suffering before, during or after performance of experiments on them. Q&A session also held.

The convener Dr. K.Daniel Raju , Associate Professor thanked the management of VIPT for giving support and encouraging the team to organize the seminar.

List of student attended

S.NO	REGD NO	NAME OF STUDENT
1.	18AC1R0037	MALAKAR VANDANA RANI
2.	18AC1R0038	MANDAPALLI SUMA
3.	18AC1R0039	MATTURTHI BALA NAGA PRIYA
4.	18AC1R0041	MUTTAMSETTY BHAVYA
5.	18AC1R0042	MUTYALA NAVYA
6.	18AC1R0043	MYCHARLA MALATHI
7.	18AC1R0044	NAKKA JANAKI KRISHNA DEVI
8.	18AC1R0045	NALLAPURAJU JAHNAVI
9.	18AC1R0046	PALIKA SUSHMA SRI
10.	18AC1R0047	PEER AFRA KANI
11.	18AC1R0048	PENTAKOTA LIKITHA
12.	18AC1R0049	PEYYALA BALA VAMSI KRISHNA
13.	18AC1R0050	PITTA SIREESHA
14.	18AC1R0051	POTHALA LAHARI
15.	18AC1R0052	PYLA YASVITHA VENKATA KALYANI
16.	18AC1R0053	RAVULA SAI SRI LAKSHMI
17.	18AC1R0054	SARAGADAM POOJA PRANATHI
18.	18AC1R0055	SEELA SANTOSHI SATYA SRI PUJITHA
19.	18AC1R0056	SINGUPURAM NITYA SREE
20.	18AC1R0057	SOWMYA KADAVALA
21.	18AC1R0058	SUMALA MONIKA
22.	18AC1R0059	SURJI SIMRAN KAUR
23.	18AC1R0060	SYED RUHEE SHOUREEN
24.	18AC1R0061	TAHSEEN NISHAT
25.	18AC1R0062	TAMADA SAGARIKA
26.	18AC1R0063	TAMMINENI MEGHANA
27.	18AC1R0064	TARITLA CHANDINI SOWRYA BHARATHI

28.	18AC1R0065	TEKKALI NEERAJA
29.	18AC1R0066	THERAPALLI MOUNIKA
30.	18AC1R0067	VAIBAGULA LAKSHMI DURGA
31.	18AC1R0068	VANKARA KOMALI
32.	18AC1R0069	YALAMARTHY CHANDANA
33.	18AC1R0070	YALLA NAVYA SRI
34.	18AC1R0071	YALLABILLI MRUDULA
35.	18AC1R0072	YARRA MAYURI
36.	18AC1R0073	YELLAPU VARAHA POOJA
37.	16AC1T0002	ANISETTI DHANA SAI MOUNIKA REDDY
38.	16AC1T0003	BALI REDDY VAMSI PRIYA
39.	16AC1T0004	BOKKA VENKATA RAVIETJA
40.	16AC1T0005	DARA KALPANA
41.	16AC1T0008	GADE VENKATA SANTHOSH BHARGAV
42.	16AC1T0009	KAKARLAMUDI BINDU VAISHALYA
43.	16AC1T0010	KAMAKA JHANSI RANI
44.	16AC1T0011	KAPPALA NAVYA JYOTHI
45.	16AC1T0012	KOLA BINDU PAVANI
46.	16AC1T0013	KOSIREDDY SHIVANI
47.	16AC1T0014	KOSIREDDY SOWMYA
48.	16AC1T0015	MANURI SURENDRA
49.	16AC1T0017	NALLMOTHU BHAVYA
50.	16AC1T0018	PERAMBURI YOGA RAJASREE
51.	16AC1T0019	REDDI RENUKA DEVI
52.	16AC1T0020	ROHIT MANAKOTIA
53.	16AC1T0022	SADIK A SAFEENA
54.	16AC1T0023	SAKALABATHULA ABHILASHA
55.	16AC1T0024	S JYOTSNA
